INTRODUCTION

R. L. Polk & Co. (publishers of more than 700 other city, county, state and national directories) presents to its subscribers and to the general public this 1930 edition of the Oakland Directory (which also includes Alameda, Berkeley, Emeryville and Piedmont).

Confidence in the growth of Oakland and its wealth, industry and population, as well as in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for truly the directory is a mirror reflecting Oakland to the world.

The enviable place occupied by R. L. Polk & Co.'s directories in offices, stores, libraries and homes throughout our country, causes the publishers to forecast the belief that the Oakland directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization having the courteous and hearty cooperation of the business and professional residents, the publishers feel that the result of their labor will meet with the approval of every resident of the city.

Population

The estimated population of the East Bay is 517,221 based on the number of individual names in the alphabetical section of the Directory, with due allowance for women and children, whose names are not included. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory.

Four Major Departments

The several essential departments are arranged in the following order:

The Buyers' Guide pages 101 to 188, printed on tinted paper, contains the advertisements of the leading manufacturing, business and professional interests of Oakland, Alameda and Berkeley. These pages will be found particularly interesting and instructive to the substantial elements of the city. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and as such, merits a survey by all buyers keen to prime themselves on sources of supply. The city's activities, in many interesting phases, are interestingly pictured to reveal what it has in its show window. In an ambitious and progressive community like Oakland the need of this kind of information readily at hand is very great and frequently pressing. General appreciation of this fact is evidenced by the liberal patronage the City Directory enjoys in the many fields which it serves.

The Alphabetical List of Names of residents, business firms and corporations is included in pages 189 to 1459.

The Street and Avenue Guide of Oakland, Alameda and Berkeley covers pages 63 to 96. In this section the names of the streets and avenues are arranged in alphabetical order.

The Classified Business Directory is included in pages 1461 to 1606. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory Section than through any other medium."

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To give emphasis to their desire to broadcast this information over the country, the publishers have placed copies of this issue of the Directory in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for free public reference and serve as perpetual advertisements of Oakland, Alameda and Berkeley, for business men the country over realize that the City Directory represents the community as it really is.

The R. L. Polk & Company Directory Library

There are over 400 of these Directory Libraries in the chain. One of them is maintained at the Oakland Chamber of Commerce. The publishers invite use of it by the public whenever in the need of information on other cities.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the City Directory as an advertising medium with assurance that it will bring a commensurate return.

R. L. POLK & COMPANY

OAKLAND

A city bent upon making the most of its resources and potentialities . . . that is Oakland, California.

With its rapidly growing business and industry, its beautiful homes, substantial population, churches, schools, scenic attractions and sterling citizenry, Oakland builds for the future upon a firm foundation.

Its residents know sparkling Lake Merritt, lying like a jewel in the heart of the city, winding and scenic Skyline Boulevard, the imposing estuary tube, picturesque waterfront, towering canyons of commerce in the city's business section, the world's largest municipal air field, Chabot Observatory, Mills College, Sequoia Park, the Municipal Auditorium, and scores of other attractions.

They eagerly show them to all visitors . . . they are proud of their city, and loyal to it.

Civic enterprise and strategic location tell the story of Oakland's growth . . . with all of its advantages, it will continue to grow, for it is the ideal place to live, to work and to play!

STATISTICAL REVIEW

Commission Form of Government

Area—60.25 square miles.

Altitude—Zero to 1800 feet.

Assessed valuation—\$270,094,991 with 211 mill tax.

Parks—46, with acreage of 628.

White population—354,568.

Colored population—9,400.

Males—186,868.

Females—177,100.

Native-born population—76.8 per cent.

Predominating nationalities—Italian, German, English, Portuguese, Canadians, Irish and Swedes.

City's bonded debt is \$11,704,182.50.

Financial: 52 banks, 7 trust companies, with total deposits of \$194,092,773, December 31, 1929; clearings of \$1,020,614,224 annually.

Post Office receipts of \$2,120,874.

Churches—190.

Building and construction: Value of building permits, \$14,511,741, with 4,754 permits.

Real estate transfers total 20,921, valued at \$85,628,163. About 42 per cent of homes owned. Dwellings—total number 72,219.

Industry: Number of establishments—1,533 manufacturers employing 50,255, paying wages of \$69,490,000 annually and having products valued at \$522,000,000 annually.

Trade: Territory (retail) serves 1,420,000 people within the trading area covering a radius of 20 miles. Jobbing territory serves 1,730,000 people within a radius of 40 miles.

Hotels: There are 41 hotels, with 15 rooms or more. Newest hotel was built in 1929.

City is the physical terminus of three transcontinental railroads.

Amusements: Largest auditorium seats 10,000 people. There are 39 theaters, with a total seating capacity of 45,000 people.

Hospitals number 26, with 2,400 beds.

Education: 3 colleges, 72 schools, including 8 high schools.

Number of pupils in public schools, 62,432. Total of teachers, 2420.

There are 172,000 volumes in the libraries of the city.

City Statistics: Total street mileage, 708 with 503 miles paved; 622 miles of sewers. Capacity of water works (public) 125,000,000 gallons daily with 1496 miles of mains and value of plant estimated at 55,000,000.

Miscellaneous: Oakland is one of a group of nine contiguous cities which had a combined population of 587,000 on January 1, 1930. During the year 1929, Oakland enjoyed 202 full days of sunshine. The United States Census Bureau states that 94.3 per cent of Oakland's population is white and 73.4 per cent of it native white. There are over 8 miles of berthing space in Oakland Harbor. 131 national industries have chosen Metropolitan Oakland for the base of their Pacific Coast operations. California's two greatest poultry producing centers are located within 20 miles of Oakland.

OAKLAND

Oakland, situated on the continental side of San Francisco Bay, is the third largest city in California, the fifth largest on the Pacific Coast, and the fastest growing industrial city in the West.

Though it has grown with tremendous rapidity, both from the standpoint of population and the standpoint of industry, Oakland is a city of homes. Stretching away from the bay there is ample room for a city of several million population before reaching the sloping hills which have become the exclusive residential section of each of the several cities along the eastern shore of the bay.

It is only in comparatively recent years that industries, recognizing the advantages offered by Oakland, began to claim the excellent factory sites along the bay shore. Today there are more than 1533 plants, making a total of more than 2300 different products in this great east bay district.

THE HARBOR

Oakland has 27 miles of deep water frontage on the greatest land-locked harbor in the world. Improved freight docking facilities have been installed by municipal and private interests, and repair facilities, superior to any on the Pacific Coast, are available here for the fleets of the world. Oakland lays claim to the largest floating dry docks in the world and the largest marine railroad. It has numerous other dry docks and marine railroads of lesser size.

A majority of the leading steamship lines, carrying either coastwise or trans-Pacific freight, have made Oakland a regular port of call, and the volume handled on Oakland docks is growing with great rapidity.

United States Government engineers recently recommended the expenditure of more than a million and one-half dollars on the Oakland harbor.

INDUSTRIES

The recently issued government census shows that Oakland gained 175.3 per cent in the number of persons engaged in manufacturing in the five years immediately preceding the compilation of these figures. In the same period of time Los Angeles gained 87.9 per cent and San Francisco 45.7 per cent.

In the matter of capital invested, Oakland gained 226.9 per cent, San Francisco gained 124.1 per cent and Los Angeles 56.5 per cent.

Salaries and wages increased 378.6 per cent in Oakland, against 176.5 per cent in Los Angeles and 122.2 per cent in San Francisco; and the value of products manufactured gained 326.5 per cent in Oakland, 170 per cent in Los Angeles, and 157.1 per cent in San Francisco in this five-year period.

W. C. Durant, when head of the General Motors, said that the efficiency of labor in his Oakland plant was greater than in any other plant of the extensive General Motors chain of factories throughout the United States. The fact that the new Durant factory was located in Oakland in the face of the greatest kind of competition from Seattle, Portland and Los Angeles, confirms the impression that the Durants were eminently well satisfied that Oakland offers the best manufacturing conditions on the Pacific Coast. The manager of one of the largest fruit packing plants in the United States recently said that, in his judgment, an Oakland fruit packing plant's advantages in efficiency of labor over a similar plant in the Sacramento or San Joaquin valleys amounts to 20 per cent.

CLIMATE

Oakland's climate is extremely equable. The average temperature for the twelve months is 57.1 degrees. The days are never too hot for comfort and the nights are always cool. Seldom, even in the so-called winter months, does the mercury drop to 32 degrees F. It is due to this ideal working climate that Oakland shipyards—and incidentally Oakland is one of the largest shipbuilding

centers in the world—were the ones to set one building record after another during the World War.

HEALTH CONDITIONS

In point of health Oakland has consistently ranked among the first cities of the nation for a long period of years, and statistics show that it has become an increasingly more healthful place for residents during the last fifteen years.

In 1920 Oakland ranked second in smallness of death rate out of a list of forty-three larger cities compiled by the United States Government. The rate which was then 11.6 per thousand was exceeded only by Seattle, where the death rate was 10.5

It is noteworthy that Oakland, as indicated by the death rate, exceeds in health conditions both Los Angeles and San Francisco; in one case 3.4 per thousand and in the other by 3 per thousand.

POPULATION

The population of Oakland in 1910 was 150,174, in 1920, 216,261, a gain of approximately 44 per cent in a ten-year period. In 1930, 284,213.

The cities of Berkeley and Alameda and the municipalities of Emeryville, Piedmont, San Leandro and Albany have now grown together into one compact whole. It is these seven cities which are referred to as the East Bay community.

SCHOOLS

Few cities in the United States can boast of a more perfect school system than Oakland, or more attractive school buildings. Noted educators from every section of the world have praised Oakland's educational facilities. The present school enrollment is in excess of 60,000. In Berkeley, which adjoins Oakland on the north, is the great University of California, the largest in the United States in point of enrollment and incidentally one of the richest in the matter of endowment.

Oakland has 52 primary and grammar schools, 12 junior high schools and 8 high schools.

PARKS AND PLAYGROUNDS

Oakland's new park and playground development—a noteworthy feature of which was the acquisition last year of extensive municipal golf links—undoubtedly will be conducive to a still higher level of health and well-being among residents of this favored city. Among the Oakland parks which have attracted the attention of tourists from all parts of the world is beautiful Lake Merritt and Lakeside Park. Lake Merritt, situated in the center of the city, comprises 160 acres, and is surrounded by wonderful lawns and beyond these by beautiful modern homes and apartments. On one side of the lake is situated Oakland's new million dollar auditorium.

The waters of Lake Merritt are dotted the year round with canoes and launches and during the so-called winter months many thousand of wild ducks make Lake Merritt their home. Spring finds these traditional wild birds almost as tame as barnyard fowls. They walk on the lawns and among the sightseers, apparently recognizing that their safety is assured.

The annual visit of these ducks that have adopted this spot in sunny California as their home has been made the occasion for pageants on the part of the people, and each January the now nationally known Wild Duck Pageant is held on the lake shore.

Possessed as it is of all those things considered essential for a great metropolis, with three transcontinental railways, its position on one of the world's greatest land-locked harbors and with ample room in which to make a tremendous expansion, Oakland's future is assured.

BERKELEY

STATISTICAL REVIEW

- Name of City—Berkeley.
- Slogan or sub-phrase—"Athens of the West."
- Form of Government—Council-Manager.
- Population—81,543 (Gov't) 89,000 estimated.
- Area—9 of land; 8 of water square miles.
- Altitude—3 to 1300 feet
- Predominating nationalities in city are English-speaking peoples.
- Parks number 17 with 109 acres, including playgrounds.
- City's bonded debt is \$1,308,692.50.
- Financial: 16 banks, 3 trust companies with clearings of \$225,766,124 annually.
- Post Office receipts of \$511,715.
- Telephones in service: 28,000.
- Church buildings—52.
- Building and construction: Value of building permits, \$4,732,846.
- Industry: Number of establishments, 210, having products valued at \$62,000,000 annually.
- Trade: Territory (retail) serves 100,000 people within the trading area covering a radius of 10 miles.
- Hotels: There are 18 hotels, with total of 1512 rooms. Newest hotel was built in 1928.
- City served by 2 railroads.
- Amusements: Largest theater or auditorium seats 1200 people. There are 7 theaters.
- Hospitals number 3.
- Education: Names of colleges, etc. Number of schools 22, including 5 high schools, one parochial and diocesan school. Number of pupils in public schools, 14,667.
- There are 117,000 volumes in the libraries of the city.
- City Statistics: Total street mileage 200, with 190 miles paved.

BERKELEY

Reaching along the base of the gracefully rolling Berkeley hills, the city looks westward over the glorious pageant of San Francisco Bay to the Golden Gate, the mystic portal through which the commerce of America and all the lands of the Pacific Ocean are interchanged. To the south of the Golden Gate it looks upon San Francisco built on its many hills. To the north it faces the Marin County hills rising into the gracefully chiseled profile of Mount Tamalpais.

Based on comparative figures of the government census of 1920 and the Berkeley Post Office and Chamber of Commerce survey of 1926, Berkeley has a population of considerably over 90,000 inhabitants, including some 7000 students of the University from outside homes. The metropolitan area of San Francisco and the East Bay cities includes in a compact district on the shores of the central Bay area a population estimated at 1,500,000 inhabitants distributed among the cities of Berkeley, San Francisco, Oakland, Piedmont, Alameda, Richmond, Sausalito, and the smaller intervening cities.

From the standpoint of climate, site, living conditions and educational opportunities, Berkeley is today a magnet attracting those who appreciate the better things of life. The great problem today is to keep up with the growth in population by making proper provision of schools, playgrounds, parks and other necessities of a rapid-growing community.

The University of California is located in the very heart of Berkeley on six hundred acres of beautiful hill slope and plain, with Strawberry Canyon in its midst, cutting back into the Berkeley hills. In the classic white granite buildings with red tile roofs, clustered around the graceful campanile, some 15,000 students pursue their studies in the regular session, the intersession and the summer session of the University. Included in the scope of its activities are one of the foremost colleges of mines in the country and a college of agriculture that is reaching out over the entire state in creating untold values to the land by its investigations of means for destroying pests of fruit and farm products, by teaching how to irrigate and to prune, by soil analysis and by removing the element of chance from husbandry and developing it into a science. Its college of architecture is training young men and women in the art of creating buildings nobly conceived in the light of artistic traditions of the past and the engineering skill of the present. Its college of medicine is endowing the men and women who are to be the guardians of life and health of the people of tomorrow with new standards of proficiency. So in law, economics, commerce, the natural sciences, pedagogy, the classics, history and art and letters, the University of California, under the presidency of the eminent Robert G. Sproul, is training the leaders of thought and action to take their places in the great democracy which is destined to shape the course of world history.

In addition to its outstanding reputation as an educational center Berkeley is becoming widely known as a city of industrial opportunity. Two hundred and ten manufacturing plants here are turning raw materials into finished products at a rate in excess of \$60,000,000 annually. Such outstanding national in-

dustries as Colgate Palmolive Peet Soap Company, H. J. Heinz Corporation, Durkee Famous Foods Incorporated, Hall Scott Motor Company, Byron Jackson Company, California Ink Company, and a host of others are located in Berkeley. The products of Berkeley's industries are shipped to practically every country in the world, and with exceptionally fine industrial sites being offered the future of Berkeley as an industrial community is assured. The use of hydro-electric power, eliminating smoke and dirt commonly associated with industrial development, gives Berkeley an opportunity to develop both as a beautiful home city and as an industrial center.

Another field in which Berkeley is doing pioneer work is the Police Department. The basis of Chief August Vollmer's work is the education of children who have established bad and unsocial habits. In this work he is now ably seconded by a highly trained policewoman. Many of the police officers are college graduates or students, chosen for a combination of physical and mental proficiency. They are gaining a training which makes many other communities look to Berkeley for police chiefs. The lie detector, the highly developed fingerprint department and the expert work in criminal identification have made the Berkeley police system internationally famous.

All charity, welfare and social agencies receive public contributions under the Community Chest plan, which has now served twenty-one agencies for the past six years.

Berkeley has operated for the past six years under the Council-Manager form of government, which has been conducted in a thoroughly business-like way and has gained very general approval from the community. John N. Edy has served as City Manager since the revised charter was adopted. The Mayor at the present time is Thomas E. Caldecott, who with the city council is enthusiastically behind Mr. Edy and his administration.

Today Berkeley, christened by the founders of the University of California after the idealistic Bishop of Cloyne, stands upon the westernmost rim of Western civilization, looking through the Golden Gate, out over the vast waste of the Pacific. Beyond the sea is the ancient East, that land of hoar antiquity teeming with its millions. California is the farthest west where the New World must pile upon the last margin of the Indo-European migration. Berkeley, the intellectual center of California, standing upon its hill slopes with the vision of the setting sun in its mystic portal, must look steadfastly through this gateway and must ponder along on the problem which it conjures to the imagination. The Pacific, now linked by the Panama Canal with the Atlantic, is the center of the civilization of tomorrow. Here where West meets East in trade and the interchange of ideas, is the theater of the mighty deeds of the world to be. Berkeley, the Pacific capital of learning, must fit herself to be worthy of the leadership which fate has thrust upon it. It must rear a city of supreme beauty wherein men will think great thoughts and exercise that leadership which flows from knowledge and high ideals. Come to us, all you who see the vision, and help us to worthily fulfill our destiny. Berkeley, looking through the Golden Gate, is calling you!

ALAMEDA STATISTICAL REVIEW

Name of City—Alameda.

Slogan or sub-phrase—The Dahlia City.

Form of Government—City Manager.

Population—34,837 (Gov't) 36,000 estimated.

Area—3½ square miles.

Altitude—Six feet.

Assessed valuation—\$30,208,000 with \$2 tax.

White population—35,000.

Colored Population—1000.

Predominating nationalities in city are American.

Parks number 5 and municipal golf course with 209.33 acres.

City's bonded debt is \$911,600.

Financial: Four banks, with total deposits of \$11,000,000; resources, \$13,000,000; four savings banks with \$2,500,000 total deposits.

Telephones in service—8850

Church buildings—14.

Building and construction: Value of building permits, \$1,404,416, with 737 new dwelling units constructed this year.

Hotels: There are 3 hotels, with total of 154 rooms. Newest hotel was built in 1926.

City served by Western Pacific, Southern Pacific, Santa Fe railroads.

Amusements: Largest theater or auditorium seats 2112 people. There are 3 theaters, with a total seating capacity of 4812 people.

Hospitals number 1 with 110 beds.

Education: Names of colleges, etc. Number of schools, 13, including 1 high school, 1 parochial and diocesan school. Number of pupils in public schools, 7380; in private schools, 278. Total of all teachers is 301.

There are 57,642 volumes in the libraries of the city.

City Statistics: Total street mileage, 71.5, with 65.9 miles paved. Miles of gas mains laid, 50; of sewers, 64.5. Fire department employs 60 men, with following equipment: 2 engines, 5 hose and chemical wagons, 3 hook and ladder trucks, in 4 station houses. Value of fire department with property is \$124,829. Police department has 44 men with 1 station and 9 pieces of motor equipment.

ALAMEDA

Alameda, located on San Francisco Bay, is one of the most beautiful home-sites in the Bay District, and has many beautiful homes. The northern and western portion of the city is devoted to industries and airports, and Alameda is rapidly becoming known as the "airport city", with its two large airports. One, the San Francisco Bay Airdrome, Inc., comprising an area of 232 acres, is now in the course of construction. It is situated on the west side of Webster street close to the entrance of the Posey Tube, is a downtown airport, and when completed will be up to date in every respect, and will be the terminal for the Western Air Express and the West Coast Air Transport Company. The other, the Alameda Airport, comprises 346 acres, and is operated by the Curtiss Wright Company, which also conducts a flying school at this port. These airports are within seven or eight minutes of the heart of Oakland, and seven minutes to San Francisco by motor boat. It is anticipated that between these two airports will be located the large U. S. Army Air Base for this part of the coast.

The Beaches located all along the south shore are the greatest vacation attraction. They offer bathing, boating, playgrounds for children, dancing and all manner of amusements.

The Beaches are not the only source of amusement. The Municipal Golf Course on Bay Farm Island, in the south end of Alameda, offers a very attractive course for those interested in golfing. The course is equipped with a modern Club House and Restaurant. The course is well patronized.

The Parks, one of Alameda's chief beauties, serve every residential section. Daily attendance averages 2085 people, the majority being children who seek outdoor amusement and recreation so generously offered by the Park Department.

With all these residential advantages, it is not to be assumed that Alameda's industrial attractions play a small part, for she is unsurpassed for industrial and manufacturing purposes, having a water frontage of 14 miles, five of which are situated on the estuary, offering splendid shipping facilities.

The Encinal Terminals, after looking over the entire East Bay District, found Alameda the most favorable site for its location. It has plans for the construction of seven more units such as the two already established.

The Alaska Packers Association, also located on the Estuary, is one of the largest salmon packing concerns in the world.

The Boyle Manufacturing Company have expanded their organization considerably during the past few years.

Alameda's most beautiful and outstanding building is the new Hotel Alameda, built of old Spanish architecture and furnished in similar style.

With its reputation as a manufacturing, horticultural and residential city, the social life is not overlooked. There are lodges and benevolent organizations such as the Elks Club, with its beautiful home, The Women's Adelpian Club, which has done wonderful work since its organization and now takes its place among the leading women's clubs in California. The Alameda Tea Club, the Shakespeare Club, the Research Club, the Alcyon Reading Club, the Business and Professional Women's Club, are among the women's clubs in active operation.

Alameda has a population of 38,000. It is under the City Manager form of government. Alameda owns its electric light plant, which makes the electric rates about 25 per cent lower in Alameda than in neighboring cities. Taxpayers in Alameda are not taxed for street or other public lighting.

Two unique blossom festivals, the annual Dahlia Show and the annual Gladioli Show, participated in by flower growers of Alameda and held under the auspices of the Chamber of Commerce, brings out thousands of flowers.

The Alameda Chamber of Commerce recently published a new booklet which gives some very valuable information on Alameda. They shall be very glad to send out any literature upon request.

MAYOR'S MESSAGE

1928-1929

Honorable City Council,
City Hall,
Oakland, California.

GENTLEMEN:

In accordance with the custom of previous years, and as required by the City Charter, I herewith present my annual report on the City of Oakland for the past year, together with such recommendations as I believe would result in an acceleration of our city's progress in ways economic, esthetic, and governmental.

Oakland still leads.

Condition of retail trade is one of the surest indications of the prosperity and continuing growth of any community, and despite the general country-wide business depression of the year just past, Oakland's average condition has been a most healthy one. For practically every month Oakland led the cities on the Pacific Coast in retail trade, and she has averaged throughout the year among the first three on the list of the few American cities that were able to maintain high business conditions.

It is true that building permits fell from the Twenty Million of 1928 to something like Fifteen Million in 1929, but this decrease of 25 per cent in new construction is insignificant compared to the falling off of building operations in practically every other city of our size or over in America. Locally, too, the decrease for 1929 is a result of what was probably overbuilding in the three previous years. It is significant to note, however, and this subject will be taken up in more detail later, that there was an exceptional increase in industrial construction and expansion.

The City of Oakland has been advertised during the past few years throughout the nation to an exceptional degree. There have been many contributing factors in this favorable publicity. Our airport is world famous, and not only maintaining that fame, but continuing to magnify it. Our harbor development is attracting in ever increasing degree world commerce. Throughout the country Oakland is known to have a new and inexhaustible supply of fresh water from the High Sierras. The great valleys of Central California every day look upon Oakland with increasing respect as a shipping and manufacturing center for their products.

It is natural, then, that our industries and our commerce should show marked development. The following data, approximated from reports submitted by the Oakland Port Department, the Statistical Department of the Chamber of Commerce, the Public Utilities, the Clearing House, United States Post Office, and other official sources of information, reflect Oakland's continued growth with clarity and definiteness. Compared to the 1929 figures I give those of 1916 and 1928.

OAKLAND'S EXCEPTIONAL ADVANCE

	1916	1928	1929	% Increase over over	
	1916	1928	1929	1916	1928
Population	187,000	342,000	361,000	93%	6%
Banks	5	50	51	920%	2%
Bank deposits	\$72,955,292	188,863,436	205,562,148	181%	9%
Bank debits (1919).....	\$751,947,000	\$2,800,000,000	\$3,017,346,000	300%	8%
Postal receipts	\$560,000	\$2,000,000	\$2,203,000	293%	10%
Assessed valuation	\$142,914,775	\$250,770,100	\$270,516,781	893%	8%
Carloads of freight.....	81,107	188,104	216,225	166%	15%
Motor vehicle registrations.....	18,000	90,000	96,600	433%	7%
Auto sales		6,961	9,889		3%
Vessels arrived	1,500	14,800	15,488	932%	5%
School enrollment	34,000	61,000	62,000	82%	2%
Cargo tonnage	182,000	2,150,000	2,286,035	1,155%	6%
Building permits (number).....	3,380	6,600	5,129	51%	—22%
Building permits (value).....	\$5,368,000	\$18,500,000	\$15,927,905	196%	—14%
Theatres	6	49	51	750%	2%
Feet of lumber carried.....	5,000,000	204,231,000	203,614,220	3,972%	—1%
National industries	24	130	132	450%	1%
General industrial establishments.....	573	1,289	1,415	147%	10%
Number of employees in above.....	7,706	45,825	47,755	529%	4%
Annual payroll in above.....	\$5,966,000	\$62,400,000	\$65,490,000	997%	5%
Value of annual output.....	\$28,522,000	\$430,000,000	\$469,500,000	1,546%	9%

Averaging the percentages of increase above enumerated indicates that Oakland, during the period from 1916 to 1929, inclusive, has grown over 700 per cent—probably no other city on earth can offer so remarkable a showing. Faith in Oakland is faith rightly placed.

INDUSTRIAL DEVELOPMENT

Our city can be congratulated upon another year of remarkable industrial progress and recognition. During 1929 eighteen more branch manufacturing plants and factory distributing branches of national concerns located in Oakland. These are in addition to many hundreds of purely local new developments in the industrial field, for which, unfortunately, there can be no space given in this document.

New Industries

Of exceptional importance among these new industries are the following—and I include them here not only because of their importance, but to show the diversity of industry for which Oakland is increasingly becoming so well known.

1. The Aluminum Company of America purchased the plant of the Modern Foundry and Pattern Works, and will add to the foundry work a high strength alloy heat-treating department, a molding department, a die-casting department and a forging department. This will probably be one of the largest and most diversified aluminum plants on the Coast.
2. The Apex Electrical Manufacturing Company of Cleveland, Ohio, merged with the Johnson Washer Company of Oakland, and has added several new products to the line of washers formerly manufactured by the Johnson Washer Company. Apex-Rotarex products include ironing machines, washing machines, electric dish pans, ventilating fans, bench grinders, electric motors, vacuum cleaners and health exercisers. The value of the manufactured production of this plant will run well over \$1,000,000 per year.
3. California Co-operative Producers, packers of canned fruits and vegetables, has an investment of over \$500,000 in the plant at the new terminal on Oakland's inner harbor. The value of its annual production will be \$2,250,000. The plant is a big employer of labor during certain seasons of the year.
4. The new plant of the Continental Can Company at the foot of Fifty-seventh Avenue represents an investment of over \$500,000, and the value of its manufactured products will annually exceed \$2,500,000.
5. The Fisher Body Service Corporation is the second plant of the Fisher Body Corporation to be located in the East Bay. The investment of this firm will exceed \$500,000.

Oakland Municipal Auditorium. Visited by over a quarter million persons during 1929—in conventions, expositions and theatrical and festival activities. Capacity: Main Arena, 8,800; Theatre, 2,000.

6. The Hazel-Atlas Glass Company of California, Ltd., manufactures glass bottles, jars and tumblers, and will have an investment in excess of \$1,000,000, with an annual payroll exceeding \$200,000.
7. The Kings County Packing Company, canners of fruits and vegetables, has an investment totaling more than \$500,000, with an annual production exceeding \$3,000,000.
8. Libby, McNeill & Libby, canners and packers of foodstuffs, has a plant with a capacity of 150,000 tons annually, located on the western waterfront.
9. The Oakland Motor Car Company established a parts and service branch to serve the entire Pacific Coast. It occupies 27,500 square feet in the new building of the United Motors Service Corporation, both being divisions of General Motors.
10. Rosenberg Brothers & Co., one of the largest packers of dried fruit in the State of California, has a plant on the western waterfront representing an investment of more than \$1,000,000. The company's annual production will exceed \$5,000,000.
11. United Motors Service, Inc., a division of General Motors, has established a service and distributing branch in a new \$250,000 building at Twelfth Avenue and East Eighth Street, from which it will serve the entire Pacific Coast.
12. C. H. Will Motors Corporation purchased the old Star plant from the Durant interests and has established a plant for the manufacture of busses and trucks. The corporation will employ over two hundred people, with a payroll of more than \$280,000 annually. The value of the manufactured products will exceed \$3,500,000 per year. Oakland is the headquarters for the Pacific Coast division.

The coming of these new concerns to Oakland has created positions for 2,500 new employees and added somewhat over \$4,000,000 to Oakland's industrial payrolls.

Expansion of Old Established Plants

It is also gratifying to note that there has been considerable expansion in industrial East Bay's older and already established plants. Chamber of Commerce representatives interviewed 25 of the larger of the manufacturers to determine how their 1929 volume of production compared with that of 1928, and in only one instance was there any decrease in volume, and that a very slight one. In the balance of cases noted the range in gain over the preceding years was from 10 to 100 per cent, with an average of more than 25 per cent.

In addition to the industrial plants locating here during the past year there were 941 new business houses. This indicates a 25 per cent greater increase in the establishment of new business institutions over the preceding year.

Oakland's Supreme Industrial Advantages

Again I wish to emphasize the superlative advantages Oakland has to offer industry.

Oakland's central location is, of course, outstanding; and our city's nearness to raw materials, plentiful supply of high-class labor, exceptionally adequate transportation facilities, bring our reasonably priced, well-located industrial sites into increasing recognition. Our central location is such that in terms of freight rates Oakland has an advantage of 15 per cent over any competitors south of the Bay region and nearly 50 per cent over Northern Pacific Coast points, thus allowing the city to serve an ever-increasing market in the eleven Western States at less cost than can any other Pacific Coast community. The local market within a radius of 40 miles includes more than 1,700,000 population; and contact with the great foreign markets, not only of the Pacific Coast but of the Atlantic, via Panama Canal, is increasing daily through the rapidly developing Port of Oakland.

THE BUSINESS DISTRICT

General Construction

As stated before, building operations in the central business district, due to many reasons, were not great. Outstanding among such constructions, however, is the new Financial Center Building rising to a sixteen story height at Fourteenth and Franklin Streets. This structure is another expression of the faith of Oakland citizens in their city. It will house, as its name implies, many business institutions in the realm of finance. But of particular interest to the people in general is the fact that it will bring to a more central location the office and facilities of the Oakland Chamber of Commerce, which has taken the entire second floor. It is distinctly an architectural triumph and a most pleasing addition to Oakland's skyline.

Another construction, which, though not of the skyscraper type, displaces an old wooden structure built forty years ago, is the three story steel and concrete building of the Pacific States Savings and Loan Company. This building is on the west side of Broadway between Thirteenth and Fourteenth, and a distinct advance over the antiquated wooden structure that it displaces.

Another splendid addition to Oakland's commercial section is the new Sears, Roebuck structure on Telegraph Avenue, near Twenty-sixth Street. This building will house the western branch of this world famous mail order and retail company. With both Sears, Roebuck Company and Montgomery Ward & Company having western plants in Oakland, this is again proof that our city is looked upon with the greatest respect throughout the business world.

New Federal Building and Post Office

After many years of endeavor on the part of myself and other officials, Congress and the Post Office Department have at last definitely agreed to give Oakland a Federal Building worthy of our city's prestige. The structure will cost in the neighborhood of a Million and a Half Dollars and will house not only the post office facilities but other Federal Government branches. The location chosen is in my estimation a perfect one, it being the block bounded on the north by Thirteenth Street, on the west by Alice, on the south by Twelfth and on the east by Jackson. With an entire block at its

disposal, the four sides of entrance and exit will make the post office operation a most facile one. Street car lines on the north side and the south side make the building easily available to all. Slightly apart from the main central business section, the post office activities will not be hampered by congested traffic. At the same time the downtown business section, at night in particular, will not be deadened by having what is known as a "dark building" in its midst. The new site has already been purchased by the government and the old buildings thereon are being razed.

It is expected that building operation will start within the next twelve months and that upon completion of the structure the old post office building at Seventeenth and Broadway will be taken down. Removal of the old structure will give the city the opportunity of widening Seventeenth Street between Broadway and Franklin, and will have a distinct effect upon relieving traffic congestion in that section of the city.

Height of Buildings

At this point I would again urge passage of an ordinance limiting the height of buildings in the downtown business district. I realize the pride our citizens have in our rapidly developing skyline, yet at the same time I realize that tall buildings in the business area result inevitably in congested traffic conditions. It has been and is today the experience of such cities as New York and Chicago that downtown traffic is almost at a standstill during at least three hours of the business day—when the multitudes of shoppers and workers are entering the section in the morning, on the streets at noon time and leaving the business section in the evening. Oakland now has the opportunity while in this first period of her growth toward metropolitanism to avoid such future disaster.

I would advocate limiting the height of future downtown buildings to a maximum of 150 feet. This will spread the business district, create more land values and therefore more assessable wealth, make individual business houses more easy of access and thus facilitate professional practice and commercial enterprise, and would bring to all citizens a more facile use of downtown streets.

-AUTOMOBILE PARKING

The matter of street congestion and commercial availability naturally is bound today with automobile parking. The situation in Oakland is daily becoming a more serious one. In my estimation it is not unlikely that some plan must be arrived at whereby parking will be prohibited entirely in certain present business sections. Not only, then, would I advocate an ordinance limiting the height of buildings but would urge our building public to incorporate in such new structures basement parking areas for their patrons. This should apply not only to commercial houses but to those built to house the professions. At the same time, too, I take this opportunity of urging upon downtown owners the profit that would lie in the construction of more of the permanent type of downtown automobile storage structures.

In this connection I must state again that I believe open parking lots are a detriment rather than a benefit to the city. Some small income to the owner who is awaiting substantial development may come from them, but they are unsightly and militate at once against early development and against the legitimate business interests of those who have built permanent and taxable improvements in the way of garages and automobile storage buildings.

Experience and observation have brought me to another conclusion regarding downtown parking. As long as parking is to be allowed at all in this area I advocate reducing the red and yellow "no parking" and "unloading" zones to an absolute minimum. It is my belief that the present red "no parking" zones are twice the size necessary. Throughout the downtown section the opening of one-half the length of each of these zones would perhaps give shoppers space for five hundred more automobiles. I believe, too, that the loading zones could be materially reduced and that loading and unloading of all merchandise except retail delivery packages should be limited to the early hours of the morning when trade is at its lightest. I am firmly convinced, also, that the gathering of refuse by the Scavenger Company should likewise be limited to the hours before 8 a. m. and after 6 p. m.

Oakland Municipal Airport is the focal point of transcontinental and coastal airways. At the upper right of the illustration is the 135-acre industrial tract bounded by rail and deep water.

ARTERIAL OPENINGS

The matter of traffic relief naturally brings one to the opening of arterials.

To begin with, the city can be grateful to the Federal Government that the new post office building is to be constructed away from the business heart of the city. This will result, as before stated, in the demolition of the present Federal Building at Seventeenth and Broadway and the consequent widening of Seventeenth Street between Broadway and Franklin, long a growing necessity.

General Needs

It is likewise vital that that section of the downtown district lying between Franklin and Lake Merritt should be made more available to east and west traffic. Fifteenth and Seventeenth Streets should be cut through to Oak at the earliest opportunity. This would open up the district to traffic and would result in the increase of property values. Without such openings there will continue to be an ever increasing fire menace to those structures lying on Alice, Jackson and Madison Streets, between Fourteenth and Nineteenth Streets.

Other openings and widenings that should be effected before business growth and construction make the cost exorbitant are as follows:

Webster Street up to Twentieth is 80 feet wide—thence to Broadway it has a width of only 66 feet. For the relief of congestion on Broadway the latter section should be widened to the full 80-foot width.

Richmond Boulevard north and south from Moss Avenue should be opened as a main north and south arterial. Such opening would not only relieve traffic congestion on Piedmont Avenue and Broadway, but would open up sections now closed to home building and to business.

Perry Street, as a relief highway for the immense east and west traffic that flows over Excelsior Boulevard and Moss Avenue, should be opened westerly of Oakland Avenue to connect with Richmond Boulevard at Moss Avenue.

I am happy to be able to report to our public that this Council has finally and definitely taken action on the opening of Twenty-second Street westerly from Broad-

way to Telegraph, and on the widening of Grand Avenue westerly from Harrison Boulevard to Telegraph. This likewise will result in creation of new values and will materially aid traffic.

Clay Street Extension

I am convinced that Clay Street should be extended northward. My belief is based upon many premises, outstanding of which are as follows:

The opening would:

1. Create another north and south arterial for the relief of downtown traffic.
2. Open to business activity a section of the near downtown district long lying idle and unremunerative to many taxpaying owners.
3. Create additional property values that will add to the city's assessable wealth.
4. Give a speedier and safer northward route for fire and police apparatus in event of fire or criminal emergency.

This opening eventually must be made—and consummating the project at the present time, while land values in the district are comparatively low, would make such action less costly to the city. I advocate, therefore, an early solution of this problem.

STREET LIGHTING

Completed Projects

I am happy to report that since my last message the city has completed four major street lighting projects. These included the installation of 664 ornamental street lighting standards at a total cost of \$235,000. The largest single project was carried out in what is known as Central Lighting District No. 2 of the downtown business section, as follows:

Clay Street—Eleventh Street to San Pablo Avenue.
 Washington Street—Seventh Street to Tenth.
 San Pablo Avenue—Fourteenth Street to Twenty-second.
 Broadway—First Street to Seventh.
 Franklin Street—Tenth Street to Broadway.
 Webster Street—Twelfth Street to Nineteenth.
 Eleventh Street—Franklin Street to Harrison Boulevard.
 Fourteenth Street—Franklin Street to Oak.
 Nineteenth Street—Telegraph Avenue to Harrison Boulevard.

The total number of light standards erected in the above district is 323, at a cost of \$123,295. And the standards themselves, I am glad to state, were cast in Oakland foundries, employing Oakland men and women.

The next largest district included the following:

Grand Avenue—Webster Street to Mandana Boulevard.
 Lake Park Avenue—Grand Avenue to Lakeshore Avenue.
 Perry Street—Grand Avenue to Lake Park Avenue.
 Lakeshore Avenue—Lake Park Avenue to Mandana Boulevard.

The total number of light standards is 159, costing \$55,382. Here also the standards were made in Oakland foundries, as were those in the following projects.

The installation of 125 standards on Telegraph Avenue from Twentieth Street to Fortieth, at a cost of \$43,083, was the third large project; and the lighting of Piedmont Avenue, Moss Avenue to John Street, with 57 standards costing \$13,255, was the fourth.

In addition to the above district lighting the Electrical Department installed 300 utilitarian overhead street lamps in various parts of the city.

Anticipated Lighting Projects

Petitions are under way for the lighting of San Pablo Avenue in its entire length. With the City of Emeryville and the City of Berkeley likewise contemplating lighting such sections of San Pablo as lie within their borders within the very near future, this project extended through Oakland will be a most valuable one. The lighting of San Pablo should benefit a section which during recent years has not participated as fully as it might in the city's general prosperity.

I wish again to urge the lighting of Fourteenth Street from Broadway to the west-

ern waterfront, the system to continue down to the ferry slips at the end of West Seventh Street.

Boulevard "Stops" Vital

In this connection, too, I would advocate the protection of the entire length of Fourteenth Street westerly from and including Grove Street by boulevard stops. West Fourteenth is now used as a route to the auto ferry by a far greater percentage of vehicular traffic than is West Seventh Street. The traffic is and, I am convinced, should be fast, and boulevard stops will give the protection desired.

MUNICIPAL WATER SUPPLY

In the past year the East Bay Municipal Utility District, of which the City of Oakland comprises the largest and most populous area, has practically completed its object—namely, that of bringing to the various communities of the district water from the High Sierras. Not only are Oakland and her neighboring cities to be congratulated upon now having an unfailing source of pure water, but the officials, under the active and inspiring leadership of Doctor Geo. C. Pardee, ex-Governor of the State of California and ex-Mayor of the city, are likewise to be congratulated upon the completion of this project. The work was done in record time.

During the year also, the Municipal Utility District purchased and took over the entire holdings and distribution system of the East Bay Water Company. This means that now Oakland owns her own water supply and distributes it through city owned facilities.

To meet the cost of interest and redemption of the bonds voted by the people when the district was created, the Board of Supervisors of Alameda County fixed, in accordance with request from the district heads, an annual amount on the tax levy. For the present fiscal year 50 cents has been added to the county tax rate for this purpose. As time goes on and the profits of the water district return to the people, this item on the annual tax levy will probably find gradual reduction. In time, therefore, the taxpayers of Oakland will own their own water supply and distribution system, and the profits instead of going into private fortunes will be used to reduce individual water charges. This will mean much to householders, manufacturing concerns and great industries of our city.

I must add here, however, my oft expressed regrets that the East Bay Municipal Utility District did not include in its plans **hydro-electric power**. With cheap water rates and cheap power rates, the City of Oakland, which is increasingly becoming a pre-eminently industrial community, would have been able to offer likewise increasing advantages to manufacturing concerns and industrial plants. I hope and would recommend that in the future the district take up this matter of power development. Municipal power plants have proven in many sections of this country, and in Canada, to result in cutting power rates in half.

Castlemont High School, Foothill Boulevard and Eighty-fifth Avenue; constructed in 1929 at a cost of \$516,000. Capacity: 70 teachers and 1,680 pupils.

The Mayor's Departments

CIVIL SERVICE

I am very happy to report that the Civil Service Department of the city government has again become a fully co-operative unit of the administration. For some years past this department has been under severe criticism on the part of citizens and city employees. A new spirit, however, has been brought about through change in personnel.

Colonel Chas. I. Anderson (now Commissioner of Streets), who for some years had been a member of the Park Board, and Mr. James C. Walsh, prominent Oakland attorney, were the new members I appointed during the past year. As there are but three members on the Civil Service Board these appointments return my administration a majority favoring my policies. This new majority appointed as Chief Examiner and Executive Secretary Colonel Custer P. Mader, well known Oakland businessman and prominent in veteran circles. A full investigation and examination of the civil service situation up to the time the administration regained control, has been made by Colonel Mader and his staff. This effort developed that many eligible lists had lapsed, and work was at once started to bring matters up to date. Colonel Mader already has given some seventy examinations covering the situation, and with more in the near future it is expected that by July 1st of 1930 all of the employees of the city will be on a permanent status.

To aid the Civil Service Board in developing its new program in alignment with administrative policies I have had Haskins & Sells, certified public accountants regularly employed to audit the city's books, make a special investigation of the pay scale of all civil service employees. This report is now in the hands of the board. Using it and the material developed through its own investigation, the Civil Service Department expects shortly to re-align and simplify all classifications of city employment. This also will add to the efficiency of the department and of our entire administrative employment situation.

I wish also to commend the Civil Service Board majority and Colonel Mader upon the practical character of the questions propounded in examinations. Common sense principles are now applied, with the result that those examined feel that the new board is operating with complete justice to all. This is particularly felt by the Police and Fire Departments whose confidence in civil service has been largely re-established through changes made. When Colonel Anderson became City Commissioner, I transferred John P. Irish from the Library Board to fill the unexpired term.

PARK DEPARTMENT

During the past year the Park Department, under leadership of the Park Board and Lee S. Kerfoot, superintendent of parks, has continued to render the highest of service to the people. Vital, though not necessarily extensive, improvements have been made in the zoo, and in the fire control system of Sequoia Park in the hills. In addition to this the Park Department has now completed all payments on lands bought during the past four or five years on the "purchase-option" plan.

Expansion Vital to Growing City

Several smaller tracts of land contiguous or adjacent to Sequoia Park are now in process of condemnation by the city. Acquisition of these few acres will smooth out the Sequoia Park boundaries and make more manifest the park limits. I favor the continued expansion of our park system.

At the present time that portion of Sequoia Park in the rear of the Joaquin Miller estate is bounded on the north by Palo Seco Creek. The boundary runs along the bottom of this creek for nearly a mile. Thus, this long, narrow strip includes only

one bank of Palo Seco Creek and allows the other bank with its hundreds of native redwoods still in private hands and liable at any time to subdivision. In my estimation the city should control both banks of this canyon if the park in future is to be of any value at all to the people of Oakland. This I have already stated in writing to the Park Board with my urgent recommendation that immediate steps be taken to purchase such land on the north bank of Palo Seco Creek as will complete city ownership of the entire stream and the redwoods adjacent thereto as far down as the present western boundary of Sequoia Park.

At the same time I would again urge the extension of Sequoia Park to the north and east. A large proportion of the land area in these directions likewise has a growth of native redwoods which for the sake of future generations we of today should not allow to be destroyed. The land at this time can be purchased at a cost not prohibitive and it is my plan in the near future to recommend the acquisition of these additional groves.

Board Changes

There have been two changes in the Park Board during the past year. Colonel Anderson resigned in order to accept my appointment to the Civil Service Board. In his place I appointed Mr. Jacob H. Lesser. Mr. Thomas F. Watson, prominent business man and well known citizen, I appointed to fill another vacancy. I am happy to see that the new members are taking a most active interest in park affairs. Their business experience of long standing in the City of Oakland will render their presence on the board most valuable.

Purchases and Improvements Made

Major achievements in this department during 1929 are:

Purchase of three-quarters of an acre adjoining Sequoia Park....	\$ 2,600.00
Final payment on Leona Heights Park.....	5,788.50
Final payment on Sanborn Park.....	7,555.00
Improvements in Sequoia Park (water mains, etc.).....	662.97
Improvements in Lakeside Park.....	447.09
Improvements in Sanborn Park (comfort station, bridge, horseshoe court and water mains).....	1,885.71
Improvements in Brookdale Park (water mains, grading, planting of lawns, construction of walks and curbs, comfort station and horseshoe court)	6,939.14
Improvements in Dimond Park (tennis court, walks and rock wall along creek)	3,028.37
Improvements in Elmhurst Park (tennis court).....	1,752.84
Improvements in Zoo (new cages and purchase of elephant).....	3,736.18
Improvements in Peralta Park (new lawn and grading).....	1,660.24
Improvements in swimming pool (fences, bleachers, and sand beach, rock work, equipment, etc.).....	6,936.68
Purchase of concrete mixer.....	321.70
	\$44,314.42

Besides the above a contract has been let for the construction of a concession building in connection with the swimming pool in Dimond Park. This may or may not be completed during the present calendar year.

Dimond Swimming Pool Gift of Lions Club

The Lions Club of Oakland during the year constructed a swimming pool in Dimond Park and presented it, through the Park Department, to the city. The approximate cost to the club was \$18,000, and the facility is modernly equipped in every way with particular emphasis upon the devices for maintaining purity of the water itself. Since the opening day the pool has been in daily use.

I take this opportunity of thanking the Lions Club and of congratulating its members upon their public spiritedness. Far too few of our Oakland organizations and of our citizens of great wealth have made contributions to their city's esthetic or

recreative adjuncts. I hope that other organizations and other individuals take this action of the Oakland Lions as an example to follow. There are many facilities, not only swimming pools, which the people of Oakland would welcome but for which the city government, holding in trust the taxpayers' funds, cannot appropriate money.

Lake Merritt Embankment

It is with pleasure, finally, that I report that the stone embankment on the shore of Lake Merritt from the vicinity of the Oak Street boathouse to the northern end of the western arm of Lake Merritt has been completed. The expense was practically limited to labor. The rock itself came from the vicinity of the Oakland Zoo in Sequoia Park so that erection of this wall gave double value to the city. More land has been leveled in the vicinity of the zoo, which will make that facility more adaptable to expansion.

The completion of this wall will not only make the shore line more attractive in appearance but will effectually end the washing away of the parked area along the shore.

CLEAR WATER FOR LAKE MERRITT

I wish at this time, however, to repeat and emphasize a recommendation I first brought up in 1919, and which I have urged for the Council's most earnest consideration in practically every annual message since. I refer to the necessity of cleansing the waters of Lake Merritt, and to the demand for the establishment of a municipal swimming pool therein. This is a matter, too, which from the fire hazard standpoint of our entire business and industrial district should have the advocacy of every taxpayer and citizen.

Lake Merritt should and can be maintained at maximum purity by bringing to it, via pipe line and high pressure salt water fire-fighting conduit and pumps, the clean, high-tide ocean water of San Francisco Bay. In my message of 1923 I stated that "bringing in this water, which can be accomplished at a relatively low cost, from the deep water of the western waterfront at the end of Fourteenth Street, will not only provide athletic clubs with clean salt water for plunge, bath and other purposes, but will permit the hotels of our city to take advantage of the supply. The greatest benefit, however, would be the provision for a continual flow of clean salt water into Lake Merritt, delivered to the lake through a series of electrically lighted cascade fountains erected at strategic points. The present Estuary opening will then be used for an outlet only."

Fifteen Acres of Park Land Can be Created

At the same time the Estuary inlet to the lake should be completely culverted from the present culvert at the Twelfth Street Dam down to the Estuary itself. This would not only eliminate a defacing tidal condition but would add fifteen additional acres of level land to the present city owned acreage south of the auditorium. This acreage is conservatively estimated by realty evaluators as being worth \$37,500 per acre, bringing the total additional valuation to the city of over Half a Million Dollars.

In addition to supplying clean water for the lake and thus eliminating danger of stagnation, and in addition to this creation of new park land, this plan would carry out the project of teaching our children to swim. Sand for lake beaches could be brought in at a minimum cost, and bathing houses of an architecture blending with the lake parking constructed for the convenience of all our public. The lake could then be used for international swimming contests and aquatic events for which our citizens must now avail themselves of the facilities of adjacent cities, spending their money in such localities when it should be spent in Oakland. That such a swimming facility would be appreciated even by those people who have swimming facilities directly on San Francisco Bay, is clearly indicated by the fact that government tests of the temperature of Lake Merritt water show it to have an average annual temperature some 12 degrees warmer than the waters of the Bay.

As it will appear upon completion in October, 1930, the Ninth Avenue Pier in Brooklyn Basin is pictured here. At the rear of this terminal are three warehouse sites, suitable for industries requiring immediate accessibility to interchange facilities.

Great Advertising Value

Another advantage would be the lake's greater value in the making of motion pictures. Some years ago two Hollywood firms used the lake for water scenes in a picture of college life, but the bathers were so fouled with the impure waters that they have not returned. This situation has been largely remedied, but still needs improvement. With clear water for such use Lake Merritt scenes would be broadcast to all the world.

Another point of inestimable value would be that with fresh salt water continually flowing down the lake and out into the Estuary, there would be developed a fishing ground of great recreational value. At the time I first gave publicity to this plan, I had an offer from a man in Pittsburg, Contra Costa County, to supply at least one ton of live striped bass for the lake each month. The State Fish and Game Commission would also co-operate in keeping the lake stocked with the fish. Not only our adult sportsmen would be supplied with sport without leaving the confines of Oakland, but our school boys and girls could also thus be taught, not only swimming, but the essentials of sportsmanship as pertaining to fish and game. Added thousands to the wild fowl now wintering on the lake would also be attracted by the clear water.

In addition to the pleasures added for Oakland people, Lake Merritt beautification and its use for aquatic sports and fishing would be of incalculable value from the advertising standpoint. Another factor lowering the actual taxpayers' cost of such a system, would be the reduction of insurance rates following the completion of the high pressure salt water system with its unlimited supply and the higher value of salt water for fire fighting purposes.

Municipal Band

As an adjunct of the Park Department, the Oakland Municipal Band gives most excellent service to the people of our city. Every Sunday during the late spring, summer and early fall months this fine musical organization, under the efficient and genial directorship of Captain Herman Trutner, Jr., gives pleasure to many thousands. Captain Trutner is an accomplished musician who can handle practically every

instrument in the band himself. He was for many years bandmaster of the 13th Infantry Band, as was his father before him.

To make enjoyment of the Municipal Band as widespread as possible throughout the city, the Park Department is experimenting with radio broadcasting devices. The plan, if workable and not too costly, is to place amplifiers not only in Lakeside Park itself, but in other city parks spotted in appropriate and accessible locations. Were sufficient funds available I would like to see several bands subsidized by the city—but under present circumstances broadcasting from the one band must serve the purpose, and will give music at a tenth the cost.

In my opinion the Municipal Band is so worthy and popular an Oakland institution that its concerts should continue throughout the year. Oakland's climate is such that there are few Sundays when outdoor concerts cannot be enjoyed. During the few rainy Sundays, however, concerts could be given in the Oakland Municipal Auditorium arena, seating 9,000 persons. I would recommend that sufficient funds be placed in the Park Department budget in the coming year to allow band concerts every week without exception.

RECREATION DEPARTMENT

The City of Oakland can be proud of another most successful year in the work carried on by the Oakland Recreation Department under the administration of the Playground Board and the efficient direction of its superintendent, R. W. Robertson. Not only has the routine work of the department gone splendidly but many major improvements of permanent nature have been effected. This good work is all the more remarkable inasmuch as the Playground Department has been operating under a comparatively lean budget. Two new members on the Board itself have been appointed to fill vacancies, namely, Mr. George Janssen, well known East Oakland merchant, and Mr. Harold Paige, prominent Oakland businessman.

Additions and Improvements

Among the major improvements completed by the Recreation Department during 1929 are the following:

General

1. Installed 12 horseshoe courts and a "jungle-gymnasium" at Mosswood Park.
2. Laid 15,000 square feet of oil surface at Poplar Street playground.
3. Laid 500 feet of sidewalk at Poplar Street.
4. Remodeled and painted field houses at deFremery Park.
5. Painted and redecorated rooms at deFremery, Alexander and New Century Community Centers.
6. Repainted all playground equipment and signs.
7. Installed new hardwood floors.
8. Installed new handball courts.
9. Fencing at several playgrounds.

Golf Course

1. Two new greens and one new seeded fairway.
2. Pipe golf-bag racks and new sand holders installed at each tee.
3. Installed 1½ miles of 6-and 8-inch pipe for the watering system.
4. Planted additional trees and shrubs.
5. Built new concession stand.
6. Remodeled showers and lavatories and installed new hardwood floors in lobby.

Boat House

1. Neon sign, "Boating," and chain of lights installed.
2. Life preservers placed on all launches.
3. Rowboats and canoes repaired and painted.

Camps

1. Built new fireplaces and chimneys.
2. Erected 41 new tent platforms.
3. Graded and leveled around buildings and improved pathways and roads.
4. Purchased 26 new tents.

Clear proof of the value of this department's activities and facilities to the community lies in the comparative analysis of 1927-1928 and 1928-1929 figures showing playground attendance and gross income from various facilities:

	1927-1928	1928-1929	Increase
Playgrounds attendance.....	1,790,167	1,954,296	164,129
Lake Merritt attendance.....	86,000	92,280	6,280
Chabot Golf Course attendance.....	54,000	65,043	11,043
Mountain Camps attendance.....	1,240	1,584	344
Gross income from golf, camps, and boats....	\$71,000	\$77,000	\$6,000

Mountain Camps

In connection with our municipal mountain camps I will again urge the necessity of acquiring at least one similar facility closer to the city. Several locations are available in the Santa Cruz Mountains, in Sonoma and Marin Counties, and on the coast. These camps could be open practically all the year, transportation would be cheaper to them, and working members of households could visit camping families during week-ends. If land could not be had through donation by public-spirited citizens, and purchase would therefore be necessary, I am sure that the people of this city would recognize the situation and willingly vote bonds to defray the initial cost. Thereafter, following the success of our two Sierra camps, they would more than pay for themselves.

Each year shows an increase in the popularity of our municipal vacation camps. Last season the camper days at the Oakland, Feather River and Tuolumne Camps totaled 17,567 camper days in comparison with the 1928 total of 15,511 camper days—an increase of 13 per cent.

Kamp Kidd for boys and Camp Sierra, our girls' camp, were under the direction and guidance of trained leaders and counselors, and provided for many of our boys and girls a wonderful outing and educational vacation in the High Sierras. Camp Chabot, for girls, located on the golf course property, provided a week of activity in the open for hundreds of our playground girls, at the cost of \$5.00 per week. This camp was completely renovated and was filled to capacity during the entire school vacation.

The Annual Christmas Pageant and May Day Festivals, given in co-operation with the Oakland Public Schools, were outstanding in their success. Twenty-five hundred children participated in the two performances, which were attended by many thousands of spectators.

LIBRARY DEPARTMENT

Expansion is Mandatory

The Oakland Free Library is in dire need of an extensive building program. The main library building, a gift of the late Andrew Carnegie, was constructed in 1902, when the population of the City of Oakland was only 60,000. Today the 400,000 people of this city demand bigger and more conveniently located facilities.

Under the most able direction of the Board of Directors of the Oakland Free Library system, plans are being worked out along these lines. Tentatively they call for a building program that will allow of a centrally located administration building and yet give every section of the city its own local library structure. These buildings will house not only regular library facilities, but will each have an auditorium for local community music festivals, amateur theatricals, debates, and so on, and will, furthermore, lend themselves to the exhibition of unit collections circulated throughout the branch system by the Oakland Public Museum. Each building will be so constructed as to allow additions that will further tend to beautify the original structure, and each also will be beautifully parked.

The members of the Library Board are appointees of the Mayor, and it is my intention in the near future to place before the public the opportunity of voting an issue of bonds to carry on this needed expansion. The next year or two, also, will probably see

a continuation, though a diminishing one, of the nation-wide unemployment situation—and public construction of this kind will employ thousands.

I am certain that the people of Oakland would back such a bond issue for the free library practically unanimously. The demand for books is daily increasing. Due to traffic conditions parents do not care to have their children go far to reach the free library service. It is the duty of the city, and I am confident the people will concur with my belief, that this most important facility for education and recreation should be expanded and brought within the reach of all.

At the close of 1929 over 65,000 men, women and children of Oakland held library cards—an increase of 4,000 cardholders over the year before. At the same time the book circulation gain over the year before was something like 250,000 volumes. This will indicate something of how present library facilities are crowded and how necessary is the expansion planned.

C. W. Gibson Gives Buildings and Books

During the year five new branch libraries were opened by the board. Two of these, the Gibson Branch, in the Columbia Park district, and the Montclair Branch, are gifts of C. W. Gibson of Rockridge and of the Homes and Children's Alliance, a philanthropic organization founded by Mr. Gibson. The Montclair Branch is of the so-called "neighborhood type" of structure, and a beautiful addition to the district. Other branches established are the Lockwood, Lakeview, and the Telegrove—the latter on Grove near Thirty-fourth Street.

I wish to take this opportunity of conveying the city's thanks to Mr. Gibson. It is a joy to know that Oakland has such a thoughtful and public-spirited citizen, and a pleasure to have this opportunity of making public acknowledgment of his gifts to the city in which he has his home.

To those members of the Library Board retired in the past year, Mr. William Eggleston and Mrs. Myrtle Fieberling, who for long have given their services gratis to aid in the administration of this work, I wish, on behalf of the city, to give my thanks. To the new board members, Mrs. Virginia E. Brown and Dr. W. J. McCracken, whom I appointed to fill vacancies occurring during the year, let me give the city's welcome. I am happy to state that the board of today is a most harmonious unit, public spirited, efficient and industrious. It is developing the plans, above noted, for library building expansion, and I am sure the public will, within a year or so, give the entire group a vote of confidence and appreciation.

LEGAL DEPARTMENT

Cases Concluded in 1929

The people of Oakland are to be congratulated on the thorough and efficient manner in which the Legal Department, under the leadership of City Attorney Preston Higgins, is caring for the city's interests. The city in the past year has participated in 41 important litigations, emerging successfully in all but one case—in which, however, a settlement not entirely unsatisfactory to the city has been recommended. I am happy to state, too, that whereas, two years ago, there were 42 cases pending, with a court age ranging from one to five years, none of the present pending litigation is over six months old except where technical defense on the part of opposition has made this circumstance.

The year of 1929 was one of the busiest years in the history of the City Attorney's office. In addition to the increased requirements occasioned by the growth of the city, the year was marked by many important rate hearings, particularly that of the telephone rates. The high post-war costs which formed a basis of valuation and rates have been gradually settling, to the end that a readjustment has become necessary. It has ever been my contention, and it is that of the City Attorney's office also, that the movement in utility rates should be downward, but we have serious difficulties convincing the State Railroad Commission on this economic truth.

Montclair Branch of Oakland Library System, donated by C. W. Gibson of Oakland through Homes and Children's Alliance, a philanthropic organization founded in this city by him.

The outstanding case of the year was that brought about by the application of the Pacific Telephone and Telegraph Company for permission from the State Railroad Commission to raise its rates. Had the original application been granted, the increased income of the East Bay Exchange would have amounted to approximately Two Million One Hundred Thousand Dollars. The Legal Department of the East Bay, under the leadership of City Attorney Higgins of our city, and with rate experts brought from the East, fought the matter before the Commission, with the result that the increase finally granted approximated Seven Hundred Thousand Dollars per annum. The Legal Department still believes the rates authorized to be excessive and the decision to be in error in several particulars, but a petition for rehearing was arbitrarily denied by the Commission and an appeal filed with the State Supreme Court met the same treatment.

At this point again, therefore, I wish to emphasize the need for a change in the matter of public utility control. I am confident that the feeling of the people of the State of California has been crystalized, through decisions of the Railroad Commission that practically without exception have been adverse to the people, into a belief that the Commission itself should be abolished. This for many years has been my own belief. The Railroad Commission, as its decisions indicate, has apparently not represented the people. I am convinced that its powers should go back to the people, either directly, through the Commission's entire abolition, or by making the members of the body elective officers, and not appointive.

Cases Pending

The telephone rate case, as noted above, is therefore concluded, and not entirely to the people's advantage. Other utility cases pending and likewise of vital importance are:

First: The city has filed suit against the Pacific Telephone and Telegraph Company, praying judgment for approximately Fifty-seven Thousand Dollars, plus interest, representing amounts due the city as franchise taxes for a four-year period ending June 30, 1929.

Second: The case of the Pacific Gas and Electric Company "natural gas rates," in which the Legal Department is appearing before the Railroad Commission to secure rates favorable to the people.

Third: The electric rates of the Pacific Gas and Electric Company and of the Great Western Power Company, in which the city is demanding a decrease in charges.

Through the Legal Department's efforts a reduction of approximately 8 per cent on residence charges has already been authorized, but it is contended that still further reduction should be made.

Fourth: The case emanating from the proposed consolidation of the Pacific Gas and Electric Company and the Great Western Power Company. The Great Western Power Company now pays approximately Twenty Thousand Dollars per year as franchise taxes to the city. The Pacific Gas and Electric Company, due to technicalities not necessary to discuss here, pays no such tax. City Attorney Higgins is taking the matter before the Railroad Commission in order to insure the city against loss of franchise taxes by the consolidation proposed.

Some other cases successfully contested by the City of Oakland were two condemnation proceedings, one adding additional acreage to Sequoia Park and the other bringing to the city the right of way for Hegenberger Road, the new highway saving twenty minutes between the heart of the city and the Municipal Airport. Another case, condemnation pending, is that of the City of Oakland against the Japanese-American Association in the matter of land lying south of the Municipal Auditorium. Other important cases include that of Jordan vs. Oakland, wherein private citizens are attacking the validity of the Grand Avenue zoning ordinance, and the Bond Premium case, the decision of which will indicate whether the premiums paid above the par value of harbor bonds go into the city general fund, for the purpose of bond redemption, or go with the bond money itself for purposes of harbor construction.

Rate Department Vital

Due to the experience in the above Public Utility cases the City Attorney is convinced that there is need for establishing within the Legal Department of the city a Rate Department, to deal solely with Public Utility cases. In this I fully concur. Public Utility rates vitally affect every man, woman and child, every home, business, and every industry in the City of Oakland. The legal care of utilities and their rates demands full time work by very competent legal specialists. I would urge that in the budget of 1930-1931 sufficient moneys be appropriated to the Legal Department for the creation of such a department. The salary would be saved many times over in the course of a single year.

Legal Counsel for All Boards

With the increased business of the Park Board, Library Board, Playground Board, Civil Service Board, their need for legal counsel becomes daily a growing necessity. Under the Park and Playground Departments there is ever present the necessity of insuring the city against personal damages. With the expansion of these two departments in the way of land acquisition and building construction—this also pertaining to the Library Department—need for legal counsel is mandatory. Similarly with the Civil Service Department, which has to do with age requirements and anticipated pension systems.

For these boards, therefore, I urge the appointment of a legal counsel. Such an official could, of course, be a deputy under the City Attorney, but delegated specifically for the task of caring for the legal affairs of the above-named departments. He should be available for all board meetings and should make himself thoroughly conversant with the activities of each board at all times.

STATE BUILDING FOR OAKLAND

Legislative Counsel Does Effective Work

For the last meeting of the State Legislature the City Council, at my request, created the position in the Legal Department of Legislative Counsel for the City of Oakland. A well-known attorney received the appointment and attended Legislature in the city's behalf. Among other duties he was given that of gaining an appropriation for the purpose of constructing a State Building in Oakland. Such a building, built and

Largest passenger airplanes in America are the F-32 Fokker transports operated between Oakland and Los Angeles by Western Air Express.

maintained from State funds, would cost the taxpayers of Oakland nothing, yet grant them an immediate service long needed and this city's growing due. Such a structure would house such services as the local State Motor Vehicle Department, local officials of the State Labor Compensation Board, allow space for a State exhibit room, and offer quarters in which could be held meetings of the State Railroad Commission, Board of Equalization, and other State commissions or officials whose duties require local meeting and discussion forums. Oakland offers splendid sites for such a building, and present state business in this community fully warrants the expenditure it would necessitate. Los Angeles and San Francisco both have such institutions. Oakland, third largest city in California, and declared by students to offer every indication of being the future great city of the Pacific Coast, should be granted similar advantages.

The Legislative Counsel put the matter in this light before state officials. It was agreed finally that a quarter of a million dollars would be set aside at the time of the meeting of the next State Legislature for such a building. However, state funds for such a construction are only available, under the law, when the land on which the building is to be constructed is owned by the State or held on at least a fifty-year lease. The present city charter of Oakland allows only a 25-year lease of city-owned property. In the near future, therefore, the charter should be amended, allowing the city to lease municipally owned land to the Federal Government, state and/or county on a 50-year basis. It is my intention in the fall elections of 1930 to place such a charter amendment, among others, before the people.

STREET DEPARTMENT

General Operation

Still operating under the reduced budget first effected in the year of 1927, the Street Department, so far as its internal operation is concerned, is still operating effectively. The 1926-1927 budget called for an expenditure of \$854,000 for maintenance and repair of streets. In 1927-1928 this sum was reduced to \$570,000; and in the fiscal year passed, although raised to \$625,000, was still \$229,000 under that of 1926-1927. I am convinced that this department, through economies in personnel and through efficiency measures

introduced and rigidly followed, can continue to give good service at a cost of not more than \$600,000 per annum.

During the past year the sum of \$1,800,000 was paid by the citizens of Oakland for street paving. The largest lineal mileage was laid in sidewalks and sanitary sewers—though the actual square footage of streets was much greater. Asphaltic concrete pavement was apparently the type of pavement favored by the department. I am happy to state that of the total mileage, only an approximate mile and a half of oil macadam was laid. I am convinced that none of this type of temporary pavement should be laid except in such sections of the city wherein the taxpayers themselves need immediate improvement of a nature that will give service for the years in which they are gaining such financial status and their property such importance as will warrant permanent paving.

In the City of Oakland at the present time there are some 400 miles of macadam streets. As the property owners arrive in such financial status as will allow them—with the increased value of their front footage—to put in permanent paving, this should be done. The paving of the city laid out in 1929 came under the following classifications, with the cost as indicated:

Asphaltic concrete	10.868 miles	\$1,066,966.94
Concrete	3.178 "	271,274.55
Oil macadam	1.487 "	82,735.84
Sanitary sewers.....	11.189 "	147,018.95
Storm sewers.....	4.968 "	159,042.37
Sidewalks	17.2 "	89,956.26

Total cost of year.....\$1,816,994.91

Open Specifications for Street Work

For years I have most emphatically stood for open specifications for all street work and materials. I have advocated such in past annual messages, in public utterances, and through the press. With but one vote on the Council, however, my hands have been tied, and the work of laying patent paving under closed specifications in regard to type and materials has kept on.

Here again I just as emphatically reiterate my opposition to anything but open specifications for all street work.

I am convinced that so-called closed specifications lend themselves too readily to administrative practices that may be open to question. During the past year practically every street improvement anticipated or completed under closed specifications has been the subject of attack by the public concerned. Repeated affirmations of false statements on the part of street paving solicitors have been made. The situation has come to such a climax that I am convinced that every petition submitted is viewed with suspicion by the public, and that the people concerned in each street proceeding brought into council look with distrust upon the entire situation.

A policy of open specifications, and open specifications only, and such a policy rigidly and unflinchingly adhered to, will meet and dissipate this growing distrust. It is not for me here to state whether or not I believe there is a basis for this growing concern regarding street work on the part of Oakland taxpayers—but the concern is there, it is growing, and definite action on open specifications will prove to the people that the Street Department and the City Council are doing their best in the people's behalf.

Gravel Should be on Par With Crushed Rock

I am thoroughly convinced that such open specifications should allow on a par gravel and crushed rock, both having been proven equally valuable in street work.

No Patent Pavement

I am further convinced that black top pavement is unnecessary, and that its laying constitutes a waste of taxpayers' funds. The Federal government and the State Highway Commission both follow the general policy of laying plain concrete pavement—it is non-skid in any kind of weather, pedestrians crossing at night are shown more clearly, by reason of the concrete's light color, it does not "roll" in hot weather, its initial cost is far less, and its upkeep is practically nothing. When the public understands that non-patent concrete pavement is as good, if not better, than patented pavement, and in some cases is even cheaper by as much as 27 cents per square yard, the demand for this type of street will become strong.

With Oakland's streets all of concrete they will be permanent, inexpensive, and the public will be satisfied with them; with all street improvement done under open specifications, the people's possibly well-based suspicions will be cleared; and with an open forum held by street authorities for the purpose of hearing, previous to its introduction to Council, any matter connected with anticipated street work, the public's understanding of just what it is to get and what it will approximately cost will be comprehensive and complete.

Corporation Yard

After many years of urging the City Council to construct a new corporation yard, I am glad to state that \$75,000 has at last been appropriated for this badly needed facility and that construction is now under way. The new Corporation Yard will be on the east side of the filled area south of the Auditorium between Seventh and Eighth Streets. Plans call for an adequate building, very attractive to the eye, with such modern appointments as will give the maximum efficiency in the service of city-owned vehicles. This new construction will have many beneficial results.

First and foremost of these will be the clearing away of the most unsightly yard that for so many years stood just south of the Auditorium on Fallon Street. With the eyesore gone from it this land will thus be available for the construction of a new livestock exhibit building for long time so badly needed by such annual exhibits as the Pacific Slope Dairy Show and the National Horse Show. The proper housing of city owned vehicles, too, will result in longer life, in so far as appearance and operation are concerned, of city automobiles and trucks. I am sure the entire city will appreciate the building of the new corporation yard and the wiping out of the old one which for so many years brought disgrace on our city.

PUBLIC HEALTH AND SAFETY

Police Activities

I wish particularly to compliment this department upon its activities in the direction of traffic control and accident prevention.

During the year the following traffic arterials were provided with button type safety zones for the protection of pedestrians boarding and alighting from street cars. The latter was the principal source during previous years of injury to pedestrians by autos.

East Fourteenth Street, between First Avenue and eastern city limits.
Grand Avenue, between Montecito and Mandana Boulevard.
Broadway, between Twentieth Street and College Avenue.
Telegraph Avenue, between Twentieth Street and Berkeley city limits.
San Pablo Avenue, between Twentieth Street and Berkeley city limits.

For further facilitating traffic 17 intersections in the downtown business districts were added in the traffic signal section. By ordinance, a system of main highways was provided throughout the entire city. This project will include the installing of 761 "Boulevard Stop" signs at a cost of Thirty-five Hundred Dollars. In the matter of auto parking, a system of loading zones was established in the central business districts, effective only during the business hours. This system was adopted to give greater assistance and protection to the merchants located in said districts. After

Berthing space at the Outer Harbor Terminal totals 1535 feet. Immediately in rear of the transit sheds are the processing and shipping depots of Libby, McNeill & Libby and Rosenberg Brothers & Company.

trying the system out for several months, however, a re-survey was made and the yellow zones are being reduced. In my estimation this reduction providing for the parking of hundreds of additional cars was very wise. It must always be remembered by our merchants and auto public that modern traffic conditions are a comparatively new municipal problem and a problem daily increasing in importance and complexity. The Traffic Division of the Police Department is composed of one lieutenant, one sergeant, thirty-four traffic men, eleven motorcycle men and two filing clerks. Its chief, Lieutenant C. L. Hemphill, is in continual touch with the Oakland Safety Council and other organizations having to do with traffic accident prevention. Incidentally during 1929 there were a total of 26,704 arrests for traffic violation while thousands, many of them visitors to the city, were warned or informed of specific rules.

Junior Traffic Reserve

I am happy to report that the Junior Traffic Reserve, composed of 900 odd boys in the elementary and high schools of this city, is proving of inestimable value to the city. The boys have regular instruction by competent traffic officers and the automobile traveling public has sent in many commendations of their efficiency. The value of this traffic aid is three-fold: In the first case, use of the Junior Traffic Corps replaces regular officers who may thereby be placed in the regular protective service of the city. This saves many thousands annually that otherwise must be spent in additional salaried traffic officers. Second, is the protection afforded school children and others at such crossings as are guarded by members of the Junior Traffic Corps and the facilitating of automobile traffic through such protection. Thirdly, and possibly most important, not only are the 900 members of the Junior Corps themselves trained to safeguard others, but our entire 60,000 school child population becomes daily more imbued with the idea of traffic safety. I wish to compliment those authorities who have charge of this good work and also the boys themselves who almost without exception handle school traffic situations with alertness and efficiency.

Police Department Flying Club

I wish here to give another word in commendation of the Oakland Police Department. As will be noted later, there is also located at the Oakland Airport the Oakland

Police Flying Club. It is to me a distinct pleasure that members of our law enforcement group are taking so serious an interest in aviation. The time will undoubtedly come when air police will be of vital need in the life of this country—not only as specifically applied to local communities but as pertaining to the state and the nation. No one knows when emergencies may arise demanding authorized police officers at the controls of aircraft. Emergencies may even in time demand use of whatever planes are available in secret investigational work, and at such times if our Oakland Police Department can furnish trained flyers the benefit will be great.

Fire Department Activities

The most excellent service rendered by the Oakland Fire Department is almost too well known for me to commend upon at length in this writing. Fire insurance rates for the City of Oakland being among the lowest in the United States of America, are proof of this. The Fire Prevention Bureau, also, performs high services and is an invaluable adjunct of the main department. The Board of Condemnation, in the year 1929, has continued the active service that has been maintained since its organization in 1923. The board meets monthly and during the past year has acted upon 106 buildings. Of these, 73 were immediately torn down, 4 were removed, 5 were repaired, and 24 are still pending generally due to the fact that the properties are in process of probate. During the same period 106 buildings were taken down without action from the board save by letters calling the owners' attention to the condition of the property.

Central Fire Station

It has long been my belief that the central fire station now on the ground floor of the city hall should be moved to a location less congested by traffic and where the sudden and oft sounding screams of the starting fire apparatus would not disturb every office in the city hall. Under present conditions at every alarm the warning sirens on the streets and on the fire apparatus in the heart of our downtown district practically stop business—the din deafens every office on the southern and eastern faces of the city hall, in the streets 10,000 persons halt in their tracks to watch the approaching fire engines, traffic is held up and great hazard to pedestrians and automobilists created. I most strongly advocate removing the fire department from the city hall and the conversion of the space now used by it into offices for the conduct of municipal business.

Health and Sanitation

Oakland's remarkably high standard of health was maintained under the direction of Dr. Chas. R. Fancher, former Health Officer, now Commissioner. Under his leadership all branches of the Public Health Service have been thoroughly reorganized and all personnel inspired to a larger and more public spirited view of their duties.

Oakland leads the country in the matter of low infant mortality rates. The country average of infant mortality is 68 out of every 1,000 babies born. Oakland's rate is only 47. Cleanliness and properly directed health and sanitation methods are of great importance in saving infant life. At the same time there is no city whose climatic conditions are more healthful than Oakland's, including small temperature fluctuations and average temperature weather, or have so marked an effect in reducing infant mortality as well as in maintaining high adult health conditions.

Largely responsible for the above situation are the concentrated efforts that were made during 1929 to raise the standard of all food products sold and the sanitation of food handling places. This work demands routine inspection of groceries, delicatessens, dairies, bakeries, confectioners, restaurants, canneries, food manufacturers, wagons, vehicles, and all other places where food is handled or is sold to the public. Stress was laid upon the general sanitation of the stores and the methods of handling

foods which are not washed, peeled or cooked before being consumed. Bakery and delicatessen goods formerly sold from counters exposed to dust and dirt must now be under glass.

Particular emphasis was made to insure the sanitation of the food quality of dairy supplies. Work is now so carefully organized and ordered that regular inspections are even made of the personal health and hygienic condition of milkers. Practically all of Oakland's milk supplies come from outside the city limits, but none is allowed delivery or sale in Oakland that comes from dairies wherein the above regulations and all others pertaining to sanitation and thorough inspection by the Oakland Health Department are not rigidly maintained.

CITY CLERK'S OFFICE

Polling Booth Improvements

An outstanding improvement in election methods was made during the last year by the City Clerk's office, under the leadership of City Clerk Frank C. Merritt. It is one that will be of utmost benefit to voting citizens and will surely be appreciated by all.

For many years approximately 75 per cent of the 450 voting booths used by the city were enclosed in tents rented by the City Clerk for polling places. Due to their insufficient lighting and heating facilities and the fact that when placed next the curb they were a menace to traffic, much complaint was made of them. At the 1929 municipal election, therefore, through the efforts of the City Clerk, the polling places were located by him and his staff in vacant stores, garages, or other buildings rented for the purpose.

As additional convenience to the public, the City Clerk included in each set of election supplies a red banner on which were lettered in white the words "POLLING PLACE—VOTE HERE" together with a six-inch galvanized iron rod on which to suspend the banner. These were placed at the curb in front of each polling place and were of great assistance to the electors not familiar with the location of their voting booth.

Police and Firemen's Relief and Pension Fund

Another reorganization beneficial to the public was brought about by the City Clerk in his capacity of Secretary of the Board of Trustees of the Police and Firemen's Relief and Pension Funds. In previous years when petitions for pensions for retirement were presented to the Board considerable difficulty was experienced through lack of authentic information as to injuries received by policemen and firemen in the performance of duty. In order to remedy this situation the City Clerk now has installed a service record of each member of the two departments showing data of employment, promotion, dependency and injuries received, and so on. A questionnaire was filled out by each member of the respective departments and from the data thus received a very valuable city record has been compiled and placed in the City Clerk's files. Not only is this record of benefit to personnel coming before the board but to the members of the board itself—the Mayor, Commissioner of Public Health and Safety and Commissioner of Revenue and Finance. The record will be of invaluable assistance in judging specific cases.

PUBLIC WORKS

Auditorium and Exposition Building

Under direction of the Department of Public Works, the various public buildings and facilities available for convention, exposition, recreational and theatrical housing were given greatly increased use. The Chamber of Commerce estimates that during the past year 250,000 delegates to conventions visited Oakland and that probably 200,000 of these used our Municipal Auditorium facilities. It is estimated that these delegates spent in Oakland through various trade channels over \$7,000,000.

The Department of Public Works, in charge of municipal buildings, is looking toward the future development of a civic center on the shores of Lake Merritt. The

present Auditorium, built in 1915, constitutes a first unit. There is vital need, however, for a second exposition building immediately adjacent thereto. In this building can be properly housed the annual Pacific Slope Dairy Show, the National Horse Show, stock exhibits, airplane and automobile expositions, etc. It has been recommended by the Department of Public Works that such a new building have a floor area not less than 200x400 with all facilities to care for such big events. With such a new exposition building to be used either separately or in conjunction with the Municipal Auditorium, the \$7,000,000 noted above as having been spent in this city by convention and exposition delegates should be far surpassed. It is a facility the city has needed and of which I shall say more later.

Fire houses, despite the fact that many of them are very old, have never been in finer condition. Many new ones are of vital need to replace structures of obsolete type that were built during the time fire apparatus was horse-drawn. I wish to take this opportunity of congratulating Commissioner Colbourn on bringing these old housing facilities to such serviceable and sightly condition.

City Hall Attractions

Many alterations inside the city hall were made during the year. The opening of the new school administration building made available the entire eleventh floor for city government purposes. The Park Department has moved to the eleventh floor and its old quarters on the fourth floor are now used by the Plumbing Department, which long has needed office expansion. The Civil Service Department, which for two years was housed on the main floor where the noise of traffic was greatly disturbing during examination periods, has taken up quarters on the fifth floor formerly used by the Electrical Department. The Electrical Department has taken vacant quarters also on the eleventh floor. On the whole, the city hall administration offices are now far better arranged than ever before, each department has sufficient space to care for expansion for years to come and its services have been made more available to the public.

New Exposition Building

In connection with the Municipal Auditorium I have for many years urged a new exposition building on the city owned land between Fallon Street and the Estuary inlet. A large acreage is available and the site for such a new and needed facility would cost the city nothing. Such a building might cost the City of Oakland a quarter of a million dollars—but I have long been convinced, through offers already made the city, that space sold by the city to industrial expositions, to horse shows of a more or less permanent nature, and to other attractions, would in ten years repay the original outlay, and that thereafter the exposition building would be a money paying asset.

As far back as 1921 the Horse Show Association of America came to me and urged that Oakland furnish facilities for a permanent stock exhibition. This association had made a nation-wide investigation and had come to the decision that Oakland furnished, in convenient transportation facilities, equable climate and available land sites, the best location in the country for such a permanent show. I endeavored at that time to gain city-wide support for the construction of an exhibition building and arena capable of housing such an attraction. Council support failed, and I was forced to drop a plan that would have brought Oakland not only national and international advertising but actual money profits in our city treasury.

Again, therefore, let me urge that this City Council and the City of Oakland take immediate steps pointing toward construction of a second exposition building adjacent to the auditorium. I am glad to state that the Department of Public Works likewise now advocates such a new facility. Though its cost may add to the tax rate for one year, I am convinced, as stated above, that the outlay will be repaid within a few years and then will return good interest.

PORT DEPARTMENT

Harbor

With the construction of many new harbor facilities completed, with the improvement of docks, wharves, warehouses and other appurtenances long in use and with the acquisition of new business and the inauguration of new building programs, the year 1929 witnessed great commercial growth throughout the entire Port of Oakland.

The Port of Oakland, I am happy to state, is now not only self-sustaining, but bringing in a large surplus. For the present fiscal year, beginning July 1, 1929, the estimated receipts will total over \$650,000. With estimated expenditures for operation, administration and maintenance approximating \$500,000 this indicates that for the fiscal year of 1929-1930 the port will bring in a surplus of at least \$150,000. This is all the more astonishing when it is recalled that only five years ago the harbor needs demanded direct tax levy upon the people. The following figures tell a story of which the City of Oakland may well be proud:

TAX LEVY REQUIREMENTS OF THE PORT OF OAKLAND

1925-1926.....	\$400,000	
1926-1927.....	200,000	
1927-1928.....	21,000	
1928-1929.....	None	
1929-1930.....	None	Surplus from Port Revenue, \$150,000

The reason for the change in status of the Port of Oakland from a tax burden to a paying project is disclosed by the following comparative record of port business in the years 1928 and 1929:

	1928	1929	Gain
Vessels arrived	13,328	13,384	56 vessels
Net tonnage of vessels.....	6,624,329	7,052,061	427,732 tons
Import tonnage	1,435,610	1,552,331	116,721 tons
Export tonnage	347,063	353,257	6,194 tons
Total cargo handled at Oakland terminals	1,782,673	1,905,588	122,915 tons

It is significant to note in the above that though in the past year there was a gain of but 56 "vessels arrived," yet in "tonnage of vessels" there was a net increase of

The Dimond Swimming Pool, constructed at the expense of and donated to the city by the Lions Club of Oakland.

427,732 tons—clear proof of a fact already known by Oakland port authorities, namely, that the growth of Oakland Harbor is bringing in a more important type of trade and consequently a larger type of vessel.

On the western waterfront in the last year, too, the Port Department located in Warehouses "A" and "B", respectively, the firms of Rosenberg Brothers & Company, the world's largest shipper of dried fruits, and Libby, McNeill & Libby, the world's largest shipper of canned goods. In the contractual agreement in connection with these municipally owned warehouses, these two giant firms agreed to make Oakland their principal shipping point in California, each guaranteeing to ship a minimum of 50,000 tons of cargo annually over Port of Oakland piers. It is fully expected, however, that the combined export shipments of these two firms will be considerably above 200,000 tons per year. In addition to all dockage, tolls and other charges incidental to export shipments, each of these firms pay to the city an annual rental of approximately \$35,000.

The result of the placing of these two firms and of other shipping growth in the outer harbor terminal has likewise brought the additional application of 14 foreign, 7 coastwise and 8 intercoastal lines for berthing space. It brings the further result that the Port Department finds it necessary to extend all facilities at this terminal, lengthening the wharfing space, constructing additional warehouses and cargo handling devices.

The Port of Oakland and private dredges have cut a channel 800 feet in width with 32 feet depth, from the pierhead line to the outer harbor, and the government dredges have completed dredging a mile long entrance channel from the deep waters of the Bay to the pierhead line. This channel is 400 feet wide by 32 feet deep and is properly marked by the United States Department of Lighthouses. In the inner harbor, Grove Street to Market Street piers, in operation as a unit in the year preceding, have lead all other municipally operated piers during 1929. 214,000 tons of general cargo passed over them during the period.

Still deeper in the inner harbor the Port Commissioners are constructing a new shipping center in Brooklyn Basin, at the foot of Ninth Avenue. Plans call for a total berthing space of 1510 feet, with the pier itself to have a width of 224 feet. Ample rail facilities will be available, and Ninth Avenue itself will be extended so that trucks will have ready access to the new shipping terminal. I am glad to report, also, for those who care for the stimulation and health-giving qualities of water recreation, that the Port of Oakland is also to have a yacht harbor. This will be located at the foot of Nineteenth Avenue, on the site previously occupied by the Oakland Yacht Club. The yachting organization and private owners have relinquished claims on their leased land in this area in order to facilitate the development of such a harbor for pleasure craft.

I am glad to state that the Railroad Commission has at last made one decision favorable to this city—it has equalized rates in the Oakland Port area and certain pier area in San Francisco. Under the new schedules Port of Oakland shippers will from now on enjoy the same rates as do San Francisco shippers. The previous discriminatory charges to firms which routed goods via piers on the continental side of the Bay have been abolished.

Oakland Now Full Port of Entry

I am also happy to report that during 1929 the Treasury Department has recognized Oaklands growth by establishing our city a full port of entry. In previous years Oakland had to look to the Custom House in San Francisco to care for imported and exported merchandise. Today we have our own Federal office to carry on this work.

Oakland Municipal Airport

Continuing the rapid progress and improvement that followed the five epoch-making trans-Pacific flights starting from the Oakland Municipal Airport, this magnificent city facility continued to make rapid forward steps during the twelve months of

1929. As a true air terminal facility, Oakland Airport leads the country, while in combination of activity and facilities, the central location and year-round operation climate, it equals any similar facility on earth.

The brief table following indicates the growth of activities for 1929 as compared with 1928:

	1928	1929	Percentage Increase
Landings	62,471	82,316	32%
Passengers	38,488	52,900	37%
Students	7,869	13,009	65%

(Indicating an average increase of airport activities of 45%)

Analysis of these figures shows that 228 planes landed at Oakland Airport each day, carrying 142 passengers and 34 students. The average amount of material carried each day is equal to 43,000 letters. Taking a twelve-hour flying day as a basis, a plane either lands or takes off at Oakland Airport every 90 seconds. New facilities and improvements made during 1929 may even double the above figures during the coming year. Among these improvements are the construction and completion of the Airport Inn and Restaurant, of Hangar No. 5, of the air channel and dock, and the extension of the field's drainage system to the point where a available operation area is now 4500 feet long, with a varying width from 1800 to 2500 feet.

Three automobile highways now serve the field, and a fourth, Hegenberger Road, is practically completed. This latest highway will reduce the running time between the Airport and the Oakland postoffice to approximately 20 minutes. The Southern Pacific Railroad has extended its tracks directly to the hangars, speed boats are in operation between the field and San Francisco, and at this time three concerns are planning amphibian plane service between Oakland Airport and Lake Merritt, in the heart of the city, San Francisco and other Bay communities. To date approximately \$1,500,000 has been spent for the acquisition and development of this facility, and it is estimated that the gross receipts from the operation of the flying field will total \$80,000 for the fiscal year 1929-1930. This will indicate that in the third year of the life of the Oakland Airport it is returning a gross 5½ per cent on its investment. There is little doubt, in my estimation, that within the next two or three years it will be a paying municipal institution.

Oakland Airport Advantages Have Exceptional Recognition

As another indication of how broadspread are the operations of the Oakland Airport and of what may be expected in the way of growth in the immediate future, let me state that there are five air transport companies of national note now operating ships on regular schedule to the north, south and east, while twenty-one concerns furnish airplane taxis service, special cross-country flights and student instruction. Located now at the port are the following air groups:

Boeing System
Boeing School of Aeronautics
Pacific Air Transport
Western Air Express
West Coast Air Transport
Maddux Airlines
Western Air Supply Company
Spillane Company
Varney Air Service
Curtiss-Wright Flying Service
D. C. Warren Co.
Wright Air Service
Fillmore Flying Service

Aero Transport Co.
Elliot and Duck Flying Service
West American Air Schools
American Air Cab Co.
Legault Flying Service
Irving Aviation Activities, Inc.
Hurley Flying Service
Bennett Flying Service
Agricultural Aviation Activities, Inc.
Bannister Flying Service
East Bay, United, Oakland Police,
Oakland and Rainbow Flying
Clubs

SCHOOLS

The Oakland School Department still maintains its nation-wide supremacy, both in buildings devoted to educational purposes and in courses of study offered and high character of instruction. The total enrollment for the year just passed showed an increase of nearly 1300 students over the previous twelve months. To care for these students the city maintains a staff of administrative officials, supervisory officers, principals and teachers, numbering, in the year just closed, a total of 1832. The Oakland School Department is rapidly nearing completion the five-year building program launched in 1924 and made possible by the bond issue voted by the people in the same year. The total issue of bonds amounted to \$9,600,000, of which \$4,974,000 were for elementary schools and \$4,626,000 for new high school construction. Thus, during the past five years, 775 new instructional rooms have been added to the department's facilities. New building construction has had the further benefit of the demolition or removal of many unsightly old buildings and temporary housing structures and in the improvement of school sites to the point where Oakland may be said to lead the world.

Oakland now has in use 10 high schools, 12 junior high schools and 53 elementary schools, a total of 75 fine, modern structures. The past year saw the completion of a new administration building at Second Avenue and East Eleventh Street, in the vicinity of the Auditorium, four new school buildings, and 12 additions, the latter consisting of assembly halls, classrooms, gymnasiums, libraries and shops. Schools to be completed this year will number three, and one addition, the total cost to be slightly over one million dollars. On the consummation of these projects the building program will be fully completed. I am glad to state that completion of the new school administration building on Second Avenue has made available the eleventh floor of the City Hall for city government purposes. This extra space has long been needed, and has resulted in a better concentration of City Hall activities within the City Hall itself. At the same time it has been made possible to house all the school administration, supervisory and business departments under one roof, resulting in better organization and coordination of the various departments of school activity.

Cost of school support in the City of Oakland is met through taxes levied by the Alameda County Board of Supervisors. The City of Oakland, due to various annexations, is divided into three general school districts. For the fiscal year 1929-1930 the school tax rates for these various districts are as follows:

Oakland (Oakland school district).....	\$1.64
Oakland (annex of 1909).....	1.64
Oakland (Bray, Elmhurst, Hayes, Highland, Fruitvale, Melrose and Lockwood)	1.62

Every school in the city participates in Lake Merritt activities. To the left is a representative Girls' Crew; to the right is a group of boys entered in a Model Yacht contest.

The per capita cost of education in Oakland in 1929 approximated \$17; the cost per student per year for the year was \$131.21—not high when compared with the great value the schools have in the community and their supreme rank among schools of the country. And it must be remembered that school support comes from the county and the state, and is not raised by city taxation.

School Buildings Completed During 1928-1929

Name	Cost	Date of Acceptance
Administration Building.....	\$205,000.00	April 2, 1929
Lazear Addition.....	65,297.21	January 3, 1929
McClymonds High Gym and Shops.....	244,292.46	January 22, 1929
Peralta Addition.....	18,639.76	January 3, 1929
Santa Fe Addition.....	34,703.19	March 5, 1929

School Buildings to be Completed During 1929-1930

Name	Cost	Date Contract Let
Crocker Highlands Addition.....	\$110,000.00	June 25, 1929
East Oakland High.....	531,630.19	May 21, 1928
Bret Harte Junior High.....	108,075.41	November 13, 1928
Herbert Hoover Junior High.....	251,862.47	November 6, 1928

GENERAL RECOMMENDATIONS

City Owned Motor Vehicles

During the past year an aggregate of some 50 automobiles, automobile trucks and police motorcycles have been purchased by the various administrative departments. This purchase in one year amounted to a total cost of well over \$100,000. Publicity given to the purchase received unfavorable reaction from the taxpayers—a reaction, which, I am confident, was justified. Unfamiliar with the details of the departmental administration, the public does not understand why its government need purchase in one fiscal year 50 motor vehicles. The question naturally arises, will there be 50 more purchased next year and 50 the next? And the question likewise arises as to what use these automobiles are put.

The public, however, does not question that there is a need for municipally owned automobiles. It has generally in mind that the Police Department needs fast automobiles and motorcycles in its work in prevention and detection of crime and criminals; that the Fire Department must be thoroughly motorized to perform efficient work in this modern day; that the field officials of the Departments of Sanitation, Health, Public Hygiene, Food Administration, Building Inspection, etc., if motorized, can do more work with less necessity of the creation of additional positions. The public likewise understands, I believe, that certain executive officials should have city-owned cars at their disposal for the same reasons. The public likewise understands that the Mayor and Commissioners receive salaries far under the average of other cities commensurate with or under the size of Oakland, and that these officials are bound, by tradition and by duty, to entertain prominent or official visitors to the city and to offer them city tours of inspection. This is good advertising.

But the purchase of 50 cars in one year cannot seem to the public a necessary outlay. Means should be evolved whereby the city administration may be properly motorized without such sudden descent upon the taxpayers' funds.

Were some plan possible whereby old cars might be "traded in," to use the general phrase, a large amount of money would be saved and this public feeling dissipated. Under existing charter provisions, however, such "trade ins" are impossible. The charter specifically states that worn-out city property may only be sold at auction.

As a means of maintaining proper motorization of all departments and of cutting down the present high cost of upkeep on antiquated motor vehicles owned by the city,

I take this opportunity of urging to your honorable body, and placing the proposition before the people of Oakland, that this situation should be remedied by charter change.

Clear Twelfth Street Dam of Car Tracks

I desire at this time to state that I have placed before the City Commissioners, with request for immediate action, the question of the relief of congestion on the Twelfth Street Dam, through removal of car tracks from their present location and their relocation on the Auditorium grounds. I have advocated this simple relief measure for years.

We built a new culvert over the Lake Merritt tidal canal for street-widening and track-carrying purposes, at a cost to the city of approximately \$40,000; but despite the city paying this \$40,000 to relieve dam congestion, the traction company has not cooperated with the Council in relocating its tracks. Completion of this plan would not be costly to the traction company. It would clear the dam of present obstacles without adding a single extra hazard, and would allow Auditorium visitors to be discharged from street cars directly on the grounds. It is a thoroughly simple remedy for the present dam congestion, and if carried out would save the taxpayers the million and three-quarters estimated cost of the solution projected by the Planning Commission.

It is my hope to secure support of the present City Council so that this change that I have so repeatedly urged may be effected in the very near future.

Downtown Comfort Stations

Again I must most emphatically bring to the attention of Council and of the people of Oakland the need of public comfort stations. With the increased growth and development of our business centers this need has increased tremendously. Oakland is perhaps the only city of its size in the country without them.

Several possibilities for the central location of such public conveniences I have many times suggested. Comfort stations could be constructed underground at the various corners of the City Hall Plaza; they could be constructed in the light wells on the Fourteenth and Fifteenth Street sides of the City Hall. Similar convenient stations, in my estimation, should be centrally located at such districts as Rockridge Business District, Grand Lake District, Fruitvale District, Dimond District, Elmhurst District, West Seventh Street Business District, Golden Gate District, Melrose District, Havenscourt District, etc. I have this year again taken up the matter with the City Engineer, who is now engaged in the survey of location, type and construction, and cost. I hope to have complete plans ready for submission to Council prior to the compilation of the next annual budget.

Seventh Street Viaduct

Continued investigation throughout the past year gives me the same conclusion as did investigation in the year 1928. Traffic on West Seventh Street continues steadily to diminish, caused by the shorter and speedier traffic artery from the heart of the city furnished by West Fourteenth Street. I believe that the north and south connecting highway on the far western waterfront, connecting the West Fourteenth concrete with the West Seventh concrete should be broadened and paved to accommodate this increasing traffic. Yet I am still of the opinion that a safety crossing should be built on West Seventh Street over or under the Southern Pacific ferry passenger locals. But I am of the emphatic conviction that the cost of such a safety crossing should be borne entirely by the Southern Pacific Railroad, whose operation creates the hazard.

Great Northern Railroad

Now pending before the Interstate Commerce Commission is the petition of the Great Northern Railroad to construct a length from its present southern terminus at Klamath Falls to connect with the Western Pacific at Bieber.

This Council is already on record, through the process of intervener, as urging that such permit be granted. I am happy to state that my office has been informed by

railroad officials that Oakland handles more freight than any other city west of Chicago. Freight is now brought into Oakland by three great systems: the Southern Pacific, the Western Pacific, and the Santa Fe. With the Great Northern anticipating use of Oakland as its western terminal, this would mean a fourth great freight carrier. I would urge every Oakland citizen having the interests of his city at heart to urge the granting of this petition. While present freight and passenger rates may not be excessive, nevertheless competition is the life of trade, and with a fourth and independent railway system entering Oakland, reduction of freight and passenger rates would seem certain.

Union Railroad Terminal

In this connection I again urge, as I have repeatedly urged in the past, the development of a Municipal Union Passenger Terminal, to be used by all railroads entering our city. It should now, if never before, have this Council's most earnest consideration.

Such a facility would be open to use by the Southern Pacific, Western Pacific, Santa Fe, Sacramento Short Line, the Great Northern, and other railroads now contemplating Oakland as the coming great industrial and shipping center of the West. I repeat again that this terminal could be no better located than in the area bounded by Wood or Willow Street on the east, Eighteenth Street on the south, Thirty-second Street on the north, and on the west might extend down the present tracks of the Southern Pacific Railroad Company along the western waterfront. The Western Pacific Railroad today holds a franchise on Wood Street, the Santa Fe has its lines on Wood Street, terminating at Twentieth and Adeline, the Southern Pacific tracks parallel the western waterfront. At the present time the Santa Fe terminal is at Fortieth and San Pablo, the Western Pacific station at Third and Broadway, the Southern Pacific Overland at Sixteenth Street station, the Sacramento Short Line at Fortieth and Shafter, and the Great Northern would probably approach Oakland by one of two routes: via Stockton and Altamont Pass from the east, via the present right of way of the Sacramento Short Line from the north. Consolidation of the terminal facilities of all these roads in the location recommended above would be of notable advantage and form a facility convenient of access to all railroads now in or anticipating coming to Oakland, and would allow room sufficiently ample to satisfy railroad traffic problems for many years to come. The fact that such a terminal would be operated by the city would likewise eliminate possible future discrimination against any carrier entering the city. Rental would be charged in proportion to terminal use by each carrier, and revenue thereby derived would—as already do our harbor revenues—repay the cost and maintenance and provide the city with a future net income.

Health and recreation are found for all at Oakland's Municipal Camps in the High Sierras.

The location I urge for such a terminal faces the municipal property on the western waterfront, thus it would be most appropriately placed for ready access to ocean shipping and transbay service. And finally as a city advertisement such a Union Terminal would be of the highest value. I cannot recommend it too strongly.

CHARTER AMENDMENTS

Mayor Revoke Own Appointments

1. An amendment giving the Mayor the power of revoking all appointments now authorized by charter to be made by himself. The mayors of most cities, including San Francisco, are endowed with this right. It is most vital for the proper carrying out of the policy of an administration. The charter would not give the Mayor these appointments if the people's desire was not to have such appointees carry out the policies of the Mayor they elect. It is but just to the people that, should any appointee fail to carry out the Mayor's policy and principles, they can, through the Mayor's own hand, revoke such appointments and place new men or women in authority.

Set Sum for Park Development

2. An amendment setting aside at least 10 cents of each annual tax rate for an appropriation to the Park Department. This would take Park Department funds out of political manipulation, giving the department an annual sum that would steadily increase with the city's growth. In this way the department could place money aside for future purchases.

Weekly Council Meeting

3. An amendment eliminating the daily Council meeting and setting aside one day of each week—probably Thursday—as Council day. Under the present system at least two hours each day are wasted by each Commissioner and his staff in making ready for and appearing in Council. This is uneconomical and inefficient. Setting aside one day of each week for the purpose of public Council meeting will save a large percentage of each Commissioner's time for office duty, and—except by the ever-present and apparently employment-dodging council chamber “chair warmers”—will be greeted by the entire public with appreciation.

Mayor's Urgent Necessity Fund

4. An amendment appropriating \$2,500 a year, to be designated as the “Mayor's Urgent Necessity Fund,” and to be expended by or under direction of the Mayor without the necessity of audit or the submission of vouchers. The cash from such a fund should be available to the Mayor at all times upon application, and without the necessity of his stating the reason for such demand or the necessity for such expenditure. The present city charter allows the Mayor an appropriation of \$500 per year as an Urgent Necessity Fund. In the entertainment of army and navy officers and outside officials, and in consideration of the fact that from time to time the Mayor is called upon to visit other cities in line of duty, \$500 per year is entirely too small an appropriation and \$200 a month by no means too large. Considering, also, the fact that the necessity for much entertainment comes unexpectedly the people of Oakland are surely just enough to allow their representative head some cash on hand for such emergency.

The charter should specifically state, also, that said fund is to be expended by or at direction of the Mayor without the necessity of audit or of vouchers, and with no interference from any other city officer or body, including the Council itself. There have been times, as may possibly exist now, when the Mayor should have money at his disposal with which to employ detectives to ferret out the authenticity of possible rumored graft, collusion, impending riots, etc. I have been unable to carry on such necessary work under the present system. Our present Auditor demands a voucher for every cent spent

under the Urgent Necessity Fund. This action hampers the activities of my office and in my belief is in disregard of the charter provision itself. But the fact itself stands and the charter, as amended, should specifically turn over this fund to the Mayor.

In asking for a charter amendment appropriating \$2,500 per year to such a fund, let me point out that this is very little compared with our sister city across the Bay. At the present time the Mayor of San Francisco is allowed a cash fund to be expended under his direction, and without submission of vouchers, to the amount of \$3,600 a year.

GAS TAX FUNDS FOR STREET IMPROVEMENT

At this point I wish again to interject the fact that "city and county" government for Oakland would directly benefit the Street Department and the people who are assessed for street improvement. Were Oakland a county as well as a city, this community would annually receive from the State Gasoline Tax funds as her "county" proportion an annual sum amounting at the present time to \$700,000. Since this money is to be used solely for highway improvement the resulting benefit is obvious.

Under present conditions in the opening of arterials the city must appeal abjectly to the Alameda County Board of Supervisors for an appropriation aiding the assessed district in each particular case. Were the gas tax funds directly available to the city treasury, the city government could give immediate guarantee of municipal aid in such projects. This would result in decreased assessments against property owners, and in a decreased tax rate. But to bring this sum directly from the state funds to the Oakland city treasury, Oakland must cut away from Alameda County and form a "City and County" government of her own—enjoying the same freedom and financial benefits as does, for instance, our neighbor of San Francisco.

CITY AND COUNTY GOVERNMENT

Reduced Tax Rate

This naturally brings me to the question of "City and County" government, which I have advocated for Oakland for fifteen years, but for which I have never been given adequate support, despite promises made me by commissioner candidates I have supported for office. City and County government would cut the taxes now paid by Oakland practically in half. The waste of the taxpayers' money under the present dual government system, whereby they not only support the Oakland city government, but, in addition, support the Alameda County government, is as clear to see as it is shameful.

For the present fiscal year the Alameda County government will collect \$21,000,000 in taxes. Of this amount the taxpayers of the City of Oakland contribute \$15,000,000. Of what is collected from Oakland, the sum of \$5,000,000 is collected for the Oakland city treasury as city taxes. The sum of \$5,000,000 is likewise turned over for the Oakland Public Schools. Another million is to pay for Oakland's share of the Municipal Utility District water bonds. Adding these, it is clear to see that the taxpayers of Oakland turn over to Alameda County \$4,000,000 from which they get no return.

Where, then, does this \$4,000,000 of Oakland money go? The answer is simple—it goes to support the government of Alameda County, whose functions simply duplicate those of the Oakland city government. This \$4,000,000 represents \$1.50 on the total tax rate—utterly thrown away under the present duplicating system, and which we pay after already having paid the running expenses of our city.

Likewise, under the "City and County" plan, the Mayor has a veto. During my first administration I ran the city on a tax rate of ONE DOLLAR, and ended the year with a surplus in the treasury. A year ago the Oakland city tax rate, not the huge additional county rate, was only \$1.94—reduced by me from the \$2.50 of three years ago—and Oakland's population has grown to 400,000. This year the city rate is \$2.11, raised to that amount by the three Commissioners who have recently resigned. If the Mayor had the veto, as he would under "City and County" government, the taxes could have been lower still, and the administration efficiently run.

Consolidation of City Tax Functions with County Proves Economy

For two years now the county has assessed and collected City of Oakland taxes through a consolidation plan I advocated and put through. Two hundred thousand dollars has been saved the taxpayers by this one consolidation alone.

When Oakland maintained an Assessor and Tax Collector's office the cost was approximately \$110,000 per year—today the county does the same work for \$10,000, saving the taxpayers four cents annually on the city tax levy. At the same time a great convenience was effected. Formerly Oakland citizens received two tax bills, one from the county, one from the city. They had to go to two different offices to pay these bills. There was continual conflict when taxpayers found their property assessed differently by two different assessors. Today taxpayers have one assessed valuation on their property, receive one bill, pay this bill at one office—as well as saving on the whole \$100,000 per year.

Now, if one consolidation can effect such a saving and such convenience, why not, through forming "City and County" government, consolidate all offices? Why must we throw away \$4,000,000 annually in supporting the Alameda County Board of Supervisors, the County Clerk and his huge staff, the County Auditor and his large staff, the County Treasurer, the County Law Enforcement Department, the County Board of Education and School System, the County Engineer, the County Jail, the County Purchasing Agent and staff, the County Health Officer with huge departments and hospitals, the County Library System, the County Civil Service Department, and so on. Oakland already has these required departments and officials.

Forming the "City and County of Oakland," then, would save us four million on one hand, and give us a million (gas tax) on the other. The total of five millions amounts approximately to \$2 on the tax rate. The total tax rate now, including both the city and county tax rates, is \$5.96. Reduce this by \$2, and the *beginning* total tax rate for the "City and County of Oakland" is only \$3.96. With internal economies and adjustments, made after the plan is in effect, I am convinced that the "City and County of Oakland" could operate, and efficiently, on a total tax rate approximately ONE-HALF of the present total rate.

OUTSTANDING EVENTS

Conventions

Over eight million dollars were brought into Oakland during the year through conventions held in our city, according to the Chamber of Commerce estimates. This huge sum, spread among Oakland's hotels, restaurants, theatres and general merchandising concerns, gives clear proof of the high value that conventions mean to our city. But this money spent is not the only asset of convention sessions here. It is of direct benefit, of course, but indirectly there is the complementary benefit of the advertising Oakland receives, not only through newspaper publicity, but by virtue of the delegates from all parts of the country having direct contact with our growing city.

I regret that space does not allow listing here all the conventions held in our city during 1929. Among them, however, I will name a few outstanding ones, along with reported attendance.

International Association for Identification.....	600
Pacific Advertising Clubs Association.....	8,000
Pacific Coast Association B'nai B'rith.....	5,000
California Federation of Post Office Clerks.....	1,200
Improved Order of Redmen and Degree of Pocahontas.....	1,750

California High School Principals Association.....	600
Master Painters Association of California.....	500

For the coming year of 1930, I am happy to report, that Oakland's convention list, according to reports already in, will exceed any year in our history. Oakland may well be happy in the fact that we have a Municipal Auditorium of such great capacity, and so conveniently and beautifully located. I am happy to mention again that plans are on foot for the construction of a second exhibition building, just south of the present Auditorium. When knowledge of this construction goes abroad our city may be assured of many exhibitions and shows for which heretofore our facilities have been inadequate.

League of California Municipalities

Attended by over 1400 delegates from all parts of the State of California, the annual meeting of the League of California Municipalities, held in Oakland last October, was the largest and most successful in the history of that body. Oakland's central location in the state, focal relationship to all lines of transportation, magnificent climate and outstanding means for housing and recreation, are naturally largely responsible for the exceptional attendance.

Practically every county in the State of California was represented by officials of one or more of its cities. The program worked most smoothly with plenty of opportunity for the officials of this city, in capacity of hosts, to show the delegates the various attractions and advantages our community has. The weather, normally beautiful in October, was even exceptionally so during the five-day meet. All Oakland can be sure that our city's name is held in even higher respect than before throughout the state.

First International Lawn Bowling Meet

In Oakland's successful handling of the First International Lawn Bowling Meet our city spread its advantages far beyond the bounds of our state. For a period of two weeks, in February, 1929, Oakland, through the California Lawn Bowling Association, and more specifically the Oakland Lawn Bowling Club, was host to the champion lawn bowling team of Great Britain. The February weather again was perfect. Every day the games were played in full sunshine, much to the marveling of our foreign visitors. The publicity Oakland received when the news of each day's play was broadcast throughout Canada and Great Britain is of inestimable value. So pleased, indeed, were the members of the British team that it has already agreed to hold a similar international contest in Oakland during 1930.

At this time it might be well to bring to your attention something of the facilities that Oakland offers for such recreation and for such contests. The City of Oakland probably boasts of two of the finest bowling greens in the United States. Located in Lakeside Park, they are full size, scientifically built as to drainage, banks and sod, and are surrounded by banks with excellent seating capacity backed by the choicest of California shrubbery. The clubhouse, built by the city, is commodious and houses the Oakland Lawn Bowling Club, Lakeside Lawn Bowling Club and the Oakland Women's Lawn Bowling Club. The greens are open every day of the year and tourists wintering in Oakland appreciate the opportunity of enjoying a season on the greens at a time when their home greens are covered with snow and frost. The Oakland Lawn Bowling Club is the second oldest in the state, organized in 1903, following the organization in 1901 of the San Francisco Scottish Bowling Club. The other two clubs noted were organized in 1914 and 1915, respectively. With the growing popularity of this outdoor sport, and of the high advertising value such contests, as noted above, have for our city, it is my hope that in the future other greens may be developed, not only in Lakeside Park, but in other park areas.

Arrival of the Motorship "Oakland"

In direct relationship with my visit to Hamburg came the arrival of the Motorship *Oakland* on November 19th, after her highly successful maiden voyage from Hamburg through the Canal and up the Pacific Coast. The entire city turned out to greet the ship. It is estimated that over 10,000 men, women and children inspected the ship on the day of her arrival. I, myself, with an official party, was the first to board her and welcome Captain W. Zeigenmeyer, W. O. von Hentig, German consul of San Francisco, and officials of the Hamburg-American Line. At noontime, under the auspices of a committee, composed of my secretaries and representatives of the Chamber of Commerce, a luncheon at Hotel Oakland was given in honor of the *Oakland's* arrival. This was attended by nearly a thousand representative citizens of Oakland, among them being officers of the vessel, officials of the Hamburg-American Line, and many representatives of the various German societies. From Oakland the motorship went north to take cargo at Seattle, and upon her arrival at this city on her return trip to Hamburg, Captain Zeigenmeyer and Hamburg-American Line officials tendered a return dinner to city officials, representatives of the Chamber of Commerce and others.

At the luncheon the Captain was presented with a large framed aerial photograph of the City of Oakland and a bronze plaque commemorating the motorship's first arrival at her namesake's port. At the same time the compliments of the City of Oakland were conveyed to the Captain, Mr. Ebey, Pacific Coast representative of the line, and Dr. Wilhelm Cuneo of Hamburg, president of the Hamburg-American Line, in the form of inscribed resolutions from the City Council.

Armistice Day

Oakland can well be proud of the Armistice Day celebration of November 11, 1929. From reports received, it was the finest ever held in the country in a city anywhere approaching the population of Oakland, and vied with the celebrations held by the great cities in the United States. Not only was it proper that Oakland, in commemoration of Armistice Day and in memory of the many Oakland men and women who lost their lives in the World War, should fittingly celebrate Armistice Day, but the magnitude of the last year's celebration was of high value from the national advertising standpoint. The sum of \$2,000 appropriated by the City Council, and \$1,000 for Oakland's celebration by Alameda County Board of Supervisors, are insignificant compared to what the Armistice Day celebration did for our city.

To head the committee, I appointed Colonel Charles I. Anderson, an outstanding Legionnaire, now Commissioner of Streets. With him I appointed fourteen other veterans—the majority of these, naturally, are American Legion men; but all veteran organizations had representation as well. Most of these committeemen had had experience on previous committees and were familiar with the details and method of procedure. Over ten thousand marchers were in the parade, some four thousand visiting Army, Navy and Marine Corps men were given a barbecue in Lakeside Park, and over four hundred officers and visiting officials attended the luncheon at Hotel Oakland. In the afternoon the great Pacific Coast Army-Navy football game was held in the University of California Memorial Stadium before an audience of over seventy thousand.

It is my intention, in view of the success of this committee's activities, to appoint a skeleton permanent committee which will be perpetually active to make such celebrations as Armistice Day and Fourth of July ever bigger and better. It is my belief that the people of Oakland owe the 1929 Armistice Day Committee their thanks, and I give the names and the organizations which they represent herewith:

Committee	Organization
Col. Chas. I. Anderson.....	American Legion
Col. C. P. Mader.....	American Legion
Captain Rufus M. Whaley.....	American Legion
Judge Howard Bacon.....	American Legion
Harry A. Nelson.....	American Legion
Lieutenant Howard Riggs.....	American Legion
Colonel Walter K. Knox.....	American Legion
Major Leroy Bartlett.....	American Legion
Lee Brown.....	Disabled American War Veterans
H. W. Winne.....	Disabled American War Veterans
Major W. H. Loving.....	Retired Army Officer
Colonel Theodore H. James.....	Grand Army of the Republic
Peter Van Houtte.....	United Spanish War Veterans
Roy Day.....	Veterans of Foreign Wars
Eugene Sturtevant.....	Naval Reserve
Dale Hollingsworth.....	ex-Navy, World War
Captain S. H. Grant.....	British Great War Veterans
Captain A. C. McGilvrey.....	British Great War Veterans

MAYOR'S "OAKLAND PUBLICITY" TOUR OF EUROPE

In January, 1929, I received notice from Mr. Harold Eby, Pacific representative of the Hamburg-American Steamship Line, that his company was starting construction in the spring of a large freight and passenger ship to be named *Oakland* in honor of our city. The company, through him, requested me, as Mayor, to visit Hamburg and take part at the christening ceremonies. Following receipt of this information I received, on February 10th, an invitation from the Alcalde of Seville, Spain, to attend the Fourth

International Congress of Cities, to be held in conjunction with the opening of the Seville Ibero-American Exposition, during the period of March 17 to 21, inclusive.

I saw a double opportunity for Oakland in these two invitations. With our city announced by the United States Chamber of Commerce as the "fastest growing and most prosperous city in America," with Oakland's harbor commanding the interest of the shipping world, with Oakland Airport, one of the finest and surely the most famous on earth, the name and achievements of our city could be further magnified through these two scheduled events. By the Mayor of Oakland's personal visit to Seville and to

The medium altitude, dry air and pure water of Oakland's mountain camps attract thousands of Oakland citizens annually.

Hamburg in accordance with invitations received; by his personal meeting with foreign city and governmental officials; by his inspection of the great ports, capitols, and industrial cities of the great countries across the Atlantic; and through his examination of municipal facilities of all cities visited, I was confident that the name of Oakland would receive international advertisement of inestimable value.

Many prominent business men of Oakland, hearing of the Hamburg-American Line's decision and of these two invitations, and believing that the time had come for Oakland definitely to make an outstanding gesture based upon her remarkable achievements, came into the public press insisting that I go—and I did.

The results of this publicity tour on behalf of the city have been excellent ones and fully justified the necessary outlay.

As the only American Mayor present at the Seville Conference I was enabled to bring the name of Oakland continually in the foreground. Every visiting delegate, representing practically every nation on earth, received copies of my annual message, of Chamber of Commerce publicity pamphlets, of Harbor and Airport bulletins, and publications issued by the Oakland Women's City Club.

Following the conference I continued on northward to Hamburg. Here I aided in ceremonies contingent upon laying the keel of the new motorship *Oakland*, and here, too, the name of our city received excellent publicity.

The "swimming hole"—Tuolumne mountain camp.

In every city I visited, word had been sent ahead of the anticipated arrival of the Mayor of Oakland, California, the "fastest growing and most prosperous city in America," and in each city the newspapers gave Oakland much desirable and valuable space.

* * * * *

BOND ISSUES

The record of remarkable achievement that Oakland already has made, the advance during the past year, and the growth and development that are so sure in the immediate future, demand a continual expansion of municipal facilities. Oakland today needs public improvements of practically every nature.

However, it is my fundamental belief that all such public improvements of a permanent nature should be paid for through the issue and sale of bonds. Through this means such improvements are paid for as they are actually used—in other words, future generations of taxpayers will participate in the cost of those facilities and improvements which they themselves are using.

I most emphatically recommend that in the near future a bond issue be brought before the public for the purpose of constructing all vitally needed improvements. I have already mentioned the necessity for a new Public Library building program; and the demands of our citizenship require expanded park areas and additional recreational facilities—but one improvement absolutely mandatory is that of the city's main drainage and sewer system. Much of the downtown system now in use was originally constructed for a city of only 60,000 population. It is inadequate today, and will surely be totally inadequate for the half million population that will soon be Oakland's. Again, the opening of arterial highways, necessary if our city's traffic problem is to have relief, should be paid for out of bond money. In my estimation the entire program of necessary improvements can be met by one issue, but I repeat again that the matter should be laid before the public at the earliest possible date.

I must again emphatically urge, as I did in my message of 1928, that in any and all bond issues *all monies be appropriated to a definite and specifically determined use and that no money from such bond issue be put to any other use than that to which the taxpayers specifically voted it.* Too often in the past have the people, not only of this community but of many others, voted sums that they were told were to be used for a specific purpose—only to see those same sums later deflected to another and often unanticipated channel of expenditure. In any future bond issues, therefore, I urge that the wording of the bond issue ordinance be such that the public clearly understands what the money is to be used for, where the improvement or construction is to take place, and further worded so as to make it mandatory upon the expending powers to see such money laid out only for the specific purposes outlined.

OAKLAND'S DESTINY IS HIGH

Statistical tables, comments through personal observation of men and women in authority, and the confidence of our citizens themselves, indicate clearly that Oakland's future will be a great one. All authorities concur in the declaration that Oakland is one of the fastest growing and most prosperous cities in the land. Our healthful climate, our low death rate, our rich and productive background, our unexcelled dockage and transportation facilities, our exceptionally meritorious schools and recreational facilities, our inexhaustible supply of pure mountain water, all combine to encourage the coming here, not only of homeseekers, but of persons looking for business opportunity and industries seeking manufacturing sites. With the continued development of our harbor; with the expansion of our schools, our transportation systems, our public places of recreation and amusement, and our airport; with the widening and extension of our arterial highways; with proper architectural supervision of our buildings, and more comprehensive control of new subdivisions; with efficiency and beauty-making zoning laws, Oakland's progress is assured.

If, in addition to this, the people of Oakland adopt the "City and County" plan of local government, and thereby cut in half the present exorbitant taxes, due to our support of unneeded county institutions, our city need never fear a rival. The biggest natural advantages combined with the smallest tax rate—these will make the name of Oakland ring with invitation throughout America, and our destiny will be assured.

Very truly yours,

JOHN L. DAVIE,

Mayor of the City of Oakland.

"The Largest Distributors of Automobiles in the World"

It's Our *Business* to Know All About Cars

It is just as reasonable for you to expect an automobile dealer to know more about cars than you do as it is for you to expect your doctor to know more about medicines.

This is a place where those engaged in the sale and service of automobiles keep fully informed about every phase of their business, to the end that the motoring public in the East Bay may benefit. In no other way can we live up to our constant responsibility for your satisfaction in the ownership of whatever you buy here.

And after all, satisfaction is what you really want, no matter what you buy.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

SYNDICATE BUILDING

Conveniently Located at 1440 BROADWAY

THERE'S PRESTIGE in a Syndicate Building address. Added to that is the convenience of a central location, real service and fair rates.

Recent completion of extensive refinishing and the constant vigilance of an efficient staff insures top notch condition in every office and suite of the Syndicate Building at all times. Three elevators are operated and Class A service is maintained.

SYNDICATE EXCHANGE

Private offices on the de luxe "desk space" plan

For the man who is constantly "in and out," for the man who is in Oakland for just a short time and for the "one man" business with only intermittent need of outside help, the Syndicate Exchange is the most economical, complete office service offered in Oakland. It is a suite of roomy, private offices served by one large waiting room or lobby.

Stenographic service is conveniently available.

Telephone service is secured by ordering a phone with an extension in the usual manner. Our secretary will take messages for you over the extension when you are out.

Mail and telephone messages are placed in boxes in the lobby of the Exchange.

Whatever your office needs may be—"desk space" or a whole floor—you will find ideal accommodations in the Syndicate Building

Your Name in the Directory—

The brief listing of your name in this directory gives an accurate account of your position in the business world. How does it compare with some of the others? Remember that your friends and business acquaintances will see it, too. Are you making your plans so that next year's directory will list your name in a finer position? ¶ In this same directory Heald graduates are listed as holding positions as accountants, stenographers, secretaries, office managers, executives. Since 1863 Heald College has consistently trained men and women for promotion. ¶ We will gladly assist you in selecting a course of study so that next year YOU can have your name listed as holding a position of greater importance in the business life of the city. You may begin at any time. Short diploma courses and Degree courses in commerce. Authorized by State of California to grant degrees.

FONG WAN'S BUSINESS ENTERPRISES IN OAKLAND ARE CENTRALLY LOCATED WITHIN A RADIUS OF 3 BLOCKS

FONG WAN

Eminently Successful Herbalist

I. THE FONG WAN HERB COMPANY, which imports its herbs direct from China and compounds them to meet individual needs.

II. THE OAKLAND EMPORIUM, a Department Store, has been recently reorganized and carries a stock of new goods for the thrifty shopper.

III. THE NEW SHANGHAI CAFE is a clean, quiet place in which the best of food is served at moderate prices. Its patronage consists chiefly of high class family trade.

The following testimonials verify the claim that marvelous results are obtained by taking the Fong Wan Herbs.

A Healthy Stomach Insures Enjoyment of Life

Mr. O. Knuth of Oakland declares that after 7 Doctors and 5 Stomach Specialists had failed, Fong Wan afforded him permanent relief. His testimonial reads:

"For years I took treatment for Stomach Ulcers, having had seven doctors and five stomach specialists, but experienced no beneficial results. I suffered continuously, more or less. Nevertheless, by taking the Fong Wan Herbs I gained permanent relief. I have been free from pain for the past nine years and can eat what I wish without bad effects.

O. KNUTH.

1501 29th Ave., Oakland, California."

Terrible Suffering from Stomach Trouble Relieved by the Fong Wan Herbs

Oakland, May 31, 1929.

For a long time I suffered from Stomach Trouble on and off, but about two months ago the pain became so severe that I tossed about day and night without a minute's rest or cessation of agony. I did not believe that I should be alive at this time. Everything I ate was thrown right up. My bowels failed to function even when I took the strongest physics. I was so weakened that I did not dare to submit to an operation.

After having sought fruitlessly to obtain relief by medical aid, I came to Fong Wan. Although I did not note any improvement at the beginning, I continued with the herbs and was rewarded by being completely restored to health. I am certainly glad to testify that Fong Wan saved my life when I was at death's door.

W. J. PATTERSON.

1706 68th Ave., Oakland, Calif. Phone TRinidad 2016.

People who wish to learn more about Fong Wan's knowledge of herbs and methods of healing should get his new book free at his office or mailed upon receipt of 10c postage within the first zone or 13c for more distant zones.

RICHMOND, CALIF.

CANCER mortality in the U. S. last year was 120,000. A great percentage of these people lost their lives through ignorance.

Because of the urgent need of educating the public as to the true nature and characteristics of the disease; its cause and proper treatment; G. C. Bohannon, manager of the Bohannon Cancer Institute, of Berkeley, Calif., has written and compiled a book entitled "Practical Information on Cancer," which will be mailed gratis to anyone, on request. You may phone, write or call.

THE BOOK contains more practical, beneficial and educational information than any book yet printed. Cancer mortality is rapidly increasing all over the civilized world.

In 1907 California had 59.9 deaths from cancer in each 100,000 population. In 1929 this death rate from cancer had increased to 146.4 in each 100,000 population.

The reduction of this appalling death rate is squarely up to the people. Early treatment is the answer.

The book clearly explains the failure of the knife, X-ray and radium in cancer.

The Bohannon Treatment has been successfully used in this Institution for 23 years. Will gladly refer you to hundreds cured all over the Pacific slope.

Home Seekers and Investors' Opportunities SMITH RESERVE

*The Garden Spot of the East Bay, the Princely Estate of
F. M. "Borax" Smith*

Selected years ago by F. M. "Borax" Smith, as a private estate when he owned thousands of acres of the choicest residential property in the East Bay, Smith Reserve was set aside for elaborate development. For years it has been held off of the market awaiting the growth of the East Bay, the increase of population that would assure appreciation of this beautiful "home park." And now that this has come you can realize your dreams of a home in its most inspiring surroundings.

From the green rolling hills, abundant with shrubbery the year around, marvelous panoramas greet you on every side. Below you lies the Bay with the great cities spread about its shores, and beyond, the Pacific Ocean. (Baedekker, the world famous guide book writer, has said that Oakland has the third finest marine view in the world.) And behind you are the wooded slopes and canyons, now thickly dotted with lovely homes. And yet, the very nature of this home-Park forbids the fear of crowded houses, so thoughtfully has it been laid out.

Smith Reserve is truly nature's garden spot, and from the first golden touch of sunrise to the colorful sunsets out beyond the Golden Gate each hour brings a new joy, which you may view from your living room windows.

As a homesite, Smith Reserve is beyond comparison; as an investment it is above criticism. You can spread your purchase over so many years that it will never be a burden to you at any time, and rest secure in the knowledge that your investment is safe, maturing steadily toward a gratifying profit.

The essential thing is to act now.
Smith Reserve is rapidly building up.

The A-to-Zed School

HIGH SCHOOL, JUNIOR COLLEGE AND INTERMEDIATE SCHOOL

**Classes limited to twelve students—Individual instruction—
No competitive athletics—No social activities**

Students Received at Any Time

The A-to-Zed School is accredited to the University of California, Stanford, Cornell, Dartmouth, Brown and other universities admitting on credentials. In 1928 graduates of the A-to-Zed School entered 21 different universities and colleges. Sixty-six A-to-Zed graduates were enrolled in the University of California during the past year.

The A-to-Zed School also has a special department devoted to the preparing of students for the College Board Examinations. Seventy-five per cent of the A-to-Zed students who took these examinations in 1928 were successful and entered the University in August.

How To Make Application For Water Service

When moving into a new house the first requirement necessary is Water Service.

It is no trouble to get this service. You may come to any one of the District's four business offices, as shown below and personally sign for meter connection—you may write your request for water—or if, in the confusion of moving, it is not convenient to write or call, a telephone message will bring a service man to you at your home.

It is the desire of the District to make it easy and convenient for you to get water service. All business offices are instructed to comply promptly with every reasonable request.

If you are a newcomer to this community you will be asked to make a deposit which may be returned to you after one year with interest at 6%.

The East Bay Municipal Utility District is anxious to serve you in every possible way, and the development of this broad policy of handling orders is part of the service to you.

Your Questions Answered:--

Many questions pertaining to the city are
answered by the City Directory.

Who are the city officials?

Where is a certain street?

Who are the foreign consuls in the city?

What societies and churches are repre-
sented?

These and a thousand more questions are
answered by the City Directory. Order
one today.

R. L. POLK & CO., of California
604 MISSION STREET SAN FRANCISCO

Main Building, Polytechnic College of Engineering
Thirteenth and Madison Streets, Oakland, Calif.

Established in 1898—Chartered to Grant Degrees in 1911

Practical Engineering

**Electrical, Mechanical, Mining, Civil and
Architectural Engineering Courses Complete
Aeronautical Engineering and Airplane Courses**

**Auto Mechanics and Special Machine Shop Courses.
Mechanical, Electrical and Architectural Drawing.
Special Surveying and Building Estimating Courses.**

This college concentrates upon the subjects required in engineering practice and omits the non-essential subjects, thus saving the student about one-half the time required in a four-year college course.

Small classes, individual instruction, close personal contact with instructors and intensive training give students of this college special advantages in their engineering courses. Degrees Granted to all who complete full courses.

**NEW ELECTRICAL, HYDRAULIC AND STEAM LABORATORIES
EXTENSIVE SHOPS—FIELD INSTRUMENTS—MODERN EQUIPMENT**

No formal examinations as entrance requirements—an opportunity for those who must rise by their own industry. Faculty of experienced men of sound training, character and experience.

This college offers a chance to the young man who cannot spend four years in university before "getting on the pay roll." It means a saving of time and money and many are taking advantage of the splendid facilities offered here.

W. E. GIBSON, President

H. C. INGRAM, Vice-President

College in session the entire year and students admitted at any time. Free Catalogue.

POLYTECHNIC BUSINESS COLLEGE
Thirteenth and Madison Sts., Oakland

A PRIVATE SCHOOL FOR PRIVATE SECRETARIES

Offers the most complete and practical training in all secretarial, business and efficiency courses ever given in the West. The Polytechnic Business College appeals especially to those who want the best and who appreciate superior facilities, including expert teaching power, pleasant surroundings, a spirit of work and enthusiasm, courteous treatment, dignified discipline and results which make for success.

GIRLS, YOUNG LADIES, WOMEN

Your opportunity is here now as never before. No argument is necessary to convince you. It only remains for you to qualify—Salaries for Beginners \$65 to \$100 per month. Get started now. This college is in session the year round.

THE BUSINESS WORLD WANTS YOU

Thousands of Stenographers, Private Secretaries, Clerks—Bookkeepers—and Office Assistants are needed in every department of Business and Government service.

NOTE:—Business men who are in need of stenographers and private secretaries are requested to inform us a few days in advance in order that we may make recommendations adapted to the requirements.

Address: Polytechnic Business College
13TH AND MADISON STS., OAKLAND, CAL.

The only Business College in California that owns and occupies its own buildings, representing an investment of \$150,000.

Maintains a College Faculty whose standing and teaching experience are a guarantee to genuine service.

W. E. GIBSON, President

H. C. INGRAM, Vice-President
